Persist Week of July 6, 2026

REMINDER: Persist is no longer accessible through ATOM. To continue using Persist, you must log in through our new app. If you have not received your login instructions or are experiencing any issues, please contact us at support@functional-bodybuilding.com. We will continue to send a PDF version of training in our Persist only weekly newsletters.

This document may be created in advance of edits to the ongoing tracks in Persist, so while we try to minimize these discrepancies as much as possible, the version displayed in our app is always the most up to date. As always, please reach out using the chat bubble in our FBB app or on our website at https://functional-bodybuilding.com if you have any questions about the programming. It may be helpful to look over the week ahead to make sure your questions are all answered in time for your workout.

Pump Lift 5x

Monday, July 6th, 2026

Week 4 Day 1 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There's also an additional working set — four total. The rack pull rewards good bracing and a strong lockout, so don't rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position, which makes the progression clean.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warm up (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity 1 (12 min):
4 Sets
Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. The reps have decreased from Week 2, aim to increase weight.

D) Strength Intensity 2 (10-12 min):
3-4 sets
Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets

Loading Note:
Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2. This week continues the hypertrophy focus — aim to accumulate more quality reps than Week 2.

E) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference between the two movements; one will be more upper back focused (meadow), the other will be more lat focused.

F) Finisher (10 min):
3 sets
Alternating Dumbbell Curl; 6 reps/side @30X0 Tempo
rest 15 sec
Dumbbell Hammer Curl; 12-15 reps @20X0 Tempo
rest 15 sec
Single Arm Farmer's Walk; 20-30m/side
rest 60-90 sec
Loading Note:
Perform 1 warmup set of each movement. Aim for each set to be close to failure on each movement.

G) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Tuesday, July 7th, 2026

Week 4 Day 2 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
1-1/4 Bench Press Progression
The 1-1/4 bench press returns with reps dropping from six to five, so the load goes up from Week 2. By now, the movement pattern should feel more familiar. The quarter rep at the bottom is still the hardest part. Don't rush through it. Control the bar all the way down, press a quarter, lower again, then press fully. That rhythm is where the stimulus lives.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warm Up (8 min):
3 Rounds
90 sec cardio of choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity 1 (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4: aim for RPE 7, 8, 9, 10, respectively. Aim to increase weight from Week 2.

D) Strength Intensity 2 (12 min):
3 sets
Incline Dumbbell Bench Press; 10-12 reps @20X0 Tempo
directly into
Incline Dumbbell Fly; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to be close to failure. Try to use the same weight for both exercises with no rest between. If you need to adjust weight, take no more than 10-15 sec between movements.

E) Strength Balance (12 min):
3 sets
Strict Bar Dip or Ring Dip; 10-15 reps @20X0 Tempo
rest 15 sec
Deficit or Parallette Push Up; 10-20 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:

Perform 1 warmup set of each movement. Aim for each set to be close to failure within the prescribed rep range. Aim to match or increase total reps from Week 2.

F) Finisher (12 min):
3 sets
Narrow Grip Bench Press; 10-12 reps @30X0 Tempo
rest 15 sec
Tall Plank KB Pass Through; 30-60 sec
rest 15 sec
Leg Lower to Windshield; 4-7 reps/side @20X0 Tempo
rest 60-90 sec and back to 1.
Loading Note:
Perform 1 warm-up set of each movement to get familiar with it. Aim for each set to be close to failure. Each set will include a tricep exercise, a core exercise involving the tricep, and a secondary core exercise.

G) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec/side

Wednesday, July 8th, 2026

Week 4 Day 3 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Pause Back Squat Progression
The pause squat returns with RPE climbing to 8-9 across all sets. This is slightly harder than Week 2. The tempo and pause length stay the same. Use Week 2 as your baseline and aim to match or beat that weight. With four weeks of squatting in this cycle, your body should be well-adapted to the movement. Trust that and keep honest to that pause in the hole.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warm Up (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity 1 (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week, focus on perfect positions and sticking to the tempo.

D) Strength Intensity 2 (12 min):
3 sets
DB Suitcase Walking Lunge; 10-12 reps/side @20X0 Tempo
rest 15-30 sec
DB Suitcase Cyclist Squat; 10-12 reps @20X0 Tempo
rest 2 minutes between sets
Loading Note:
The goal here is high volume on the legs. The grip may be a limiter for some of you, so we recommend using weightlifting straps to get the most out of this section. Aim for each noncomplimentary set to be close to failure. Aim to increase reps or weight from week 2.

E) Strength Balance (12 min):
3 sets
Barbell B Stance Hip Thrust (Left); 10-12 reps @20X1 Tempo
rest 15 sec
Barbell B Stance Hip Thrust (Right); 10-12 reps @20X1 Tempo
rest 15 sec
Alternating Single Arm KB Split Stance Swing; 10-12 reps/side OR Russian KB Swings; 15-25 reps.
rest 2 minutes between sets
Loading Note:
Perform just a few reps of each movement to get familiar. For Set 1-3, aim for RPE 8,9,10 respectively. Aim to increase reps or weight from Week 2.

F) Finisher (10 min):
3 sets
Side Plank Hip Taps; 10-12 reps/side @20X0 Tempo
rest 15 sec
Copenhagen Plank; 30 sec/side
rest 15 sec
Suitcase Single Leg Standing Calf Raise; 10-15 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:

The goal of this section is to focus on the quality of contractions of the smaller muscles in your lower body. You can push to failure, but make sure to keep the quality high.

G) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Thursday, July 9th, 2026

Week 4 Day 4 - Persist PUMP LIFT 5x

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse
30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min) :
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Friday, July 10th, 2026

Week 4 Day 5 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Barbell Strict Press Progression
This is the week of the heavier barbell strict press. Reps drop from Week 2, which means weight goes up. The last set should be a true RPE 10. If you hit Week 2 well, add a small amount and see what you can do.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warm Up (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
Dip Support; 15-30 sec
Single Arm Ring Row; 10 reps/side

C) Strength Intensity 1 (12-14 min)
4 Sets
Barbell Strict Press; 6-8 reps; rest 90-120 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Set 1-4, aim for RPE 8,8,9,10 respectively. Aim to increase reps or weight from week 2.

D) Strength Intensity 2 (12 min):
3 sets
Supinated Barbell Bent Over Row; 10-15 reps @20X0 Tempo
rest 15 sec
Supinated Pull Up Isometric or Ring Row Hold; 20-30 sec
rest 2 min between sets
Loading Note:
Perform 1 warmup set for each movement. Aim for each set to be close to failure within the rep range.

E) Strength Balance (15 min):
3 sets
DB Arnold Press; 8-10 reps @20X0 Tempo
rest 15 sec
DB Full Raise; 12-15 reps @20X0 Tempo

rest 15 sec
Cable or Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:
Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure. Aim to increase total reps or weight from week 2.

F) Finisher (10 min):
3 sets
Barbell Overhead Tricep Extension (seated or standing); 6-10 reps @40X0 Tempo
rest 15 sec
Barbell Preacher Curl; 12-15 @21X1 Tempo or KB Horn Grip Curl; 20-30 reps
rest 60 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
Childs Pose w Lat Stretch; 30 sec/side
Thread the Needle; 5 reps/side
Prayer Stretch; 30-60sec

Saturday, July 11th, 2026

Week 4 Day 6 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Front Squat
The front squat returns to eight reps this week. Fewer reps last week means more in the tank for this session. Match or beat Week 2 weight. Keep the torso upright and the elbows high from the first rep to the last.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warm Up (8 min):
3 Rounds
90 sec cardio of choice
Shinbox Switch; 5-10 reps/side
Single Leg Banded Adduction; 10-15 reps/side

C) Strength Intensity 1 (12 min):

4 sets
Front Squat; 8 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4, aim for RPE 7,8,9,10 respectively. Aim to match or beat weight from week 2.

D) Strength Intensity 2 (12 min):
3 sets
DB Rack Tall Kneel to Stand; 10 reps/side @20X1 Tempo
directly into
DB Rack Curtsy Squat; 10 reps/side @20X1 Tempo
rest 90-120 sec between sets
Loading Note:
Perform 1-2 warmup sets. Set 1-3: aim for RPE 8, 9, 10, respectively. Match or beat the weight from week 2.

E) Strength Balance (12 min):
3 sets
Patrick Step Level 1-3; 15 reps/side @21X0 Tempo
rest 30 sec
Assisted KOT Squat; 10-15 reps @30X0 Tempo
rest 60-90 sec
Loading Note:
Perform 1 warmup set of each movement to determine the starting weight. Set 1-3: aim for RPE 7, 8, 9, respectively.

F) Finisher (10 min):
3 sets
Hanging Leg Raise; 10-15 reps @21X1 Tempo
rest 15-30 sec
Decline or Weighted Feet Anchored Sit Up; 10-15 reps @20X0 Tempo
rest 60-90 sec and back to 1.
Loading Note:
Aim for each noncomplimentary superset to be close to failure.

G) Cooldown (5 min):
1-2 sets
Middle Split; 60 sec
Front Split Progression; 30 sec/side

Sunday, July 12th, 2026

Week 4 Day 7 - Persist PUMP LIFT 5x

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus

Pump Lift 4x

Monday, July 6th, 2026

Week 4 Day 1 - Persist PUMP LIFT 4x

A) Daily Focus Notes:
Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There is also an additional working set, four total. The rack pull rewards good bracing and a strong lockout, so don't rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity 1 (12 min):
4 Sets
Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 8, 8, 9, and 10, respectively. The reps have decreased from Week 2, aim to increase weight.

D) Strength Intensity 2 (10-12 min):
3-4 sets
Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets
Loading Note:
Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2.

E) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference between the two movements, one will be more upper back focused (meadow), the other will be more lat focused.

F) Finisher (8-12 min):
3 sets
Barbell B Stance Hip Thrust (Left); 10-12 reps @20X1 Tempo
rest 15 sec
Barbell B Stance Hip Thrust (Right); 10-12 reps @20X1 Tempo
rest 15 sec
Alternating Single Arm KB Split Stance Swing; 10-12 reps/side OR Russian KB Swings; 15-25 reps
Rest 2 minutes between sets
Loading Note:

Perform just a few reps of each movement to get familiar. For Set 1-3, aim for RPE 8,9,10 respectively. Aim to increase reps or weight from Week 2.

G) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Tuesday, July 7th, 2026

Week 4 Day 2 - Persist PUMP LIFT 4x

A) Daily Focus Notes:
1-1/4 Bench Press Progression
The 1-1/4 bench press returns with reps dropping from six to five, so load goes up from Week 2. By now the movement pattern should feel more familiar. The quarter rep at the bottom is still the hardest part. Don't rush through it. Control the bar all the way down, press a quarter, lower again, then press fully.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity 1 (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4, aim for RPE 7,8,9,10 respectively. Aim to increase weight from Week 2.

D) Strength Intensity 2 (12 min):
3 sets
Incline Dumbbell Bench Press; 10-12 reps @20X0 Tempo
directly into
Incline Dumbbell Fly; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.

Loading Note:
Perform 1 warmup set to determine starting weight. Aim for each set to be close to failure. Try to use the same weight for both exercises with no rest between. If you need to adjust weight, take no more than 10-15 sec between movements.

E) Strength Balance (12 min):
3 sets
Strict Bar Dip or Ring Dip; 10-15 reps @20X0 Tempo
rest 15 sec
Deficit or Parallette Push Up; 10-20 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set of each movement. Aim for each set to be close to failure within the prescribed rep range. Aim to match or increase total reps from Week 2.

F) Finisher (12 min):
3 sets
Narrow Grip Bench Press; 10-12 reps @30X0 Tempo
rest 15 sec
Tall Plank KB Pass Through; 30-60 sec
rest 15 sec
Leg Lower to Windshield; 4-7 reps/side @20X0 Tempo
rest 60-90 sec and back to 1.
Loading Note:
Perform 1 warmup set of each movement to get familiar. Aim for each set to be close to failure. Each set will include a tricep exercise, a core exercise with the tricep involved, and then a secondary core exercise.

G) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec

Wednesday, July 8th, 2026

Week 4 Day 3 - Persist PUMP LIFT 4x

A) Active Recovery Work (30 min):

Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Thursday, July 9th, 2026

Week 4 Day 4 - Persist PUMP LIFT 4x

A) Daily Focus Notes:
Pause Back Squat Progression
The pause squat returns with RPE climbing to 8-9 across all sets. This is slightly harder than Week 2. The tempo and pause length stay the same. Use Week 2 as your baseline and aim to match or beat that weight. With four weeks of squatting in this cycle, your body should be well-adapted to the movement. Trust that and keep honest to that pause in the hole.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity 1 (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week focus on perfect positions and sticking to the tempo.

D) Strength Intensity 2 (12 min):
3 sets
DB Alternating Drop Lunge; 10-12 reps/side @20X0 Tempo

rest 15-30 sec
Front Squat; 8 reps @20X0 Tempo
rest 2 minutes between sets
Loading Note:
The goal here is high volume on the legs. Focus on quality and heavy in the lunge and then burning the legs out with the front squat. Set 1-3, aim for RPE 8,9,10 respectively.

E) Strength Balance (12 min):
3 sets
DB Rack Tall Kneel to Stand; 10 reps/side @20X1 Tempo
directly into
DB Rack Curtsy Squat; 10 reps/side @20X1 Tempo
rest 90-120 sec between sets
Loading Note:
Perform 1-2 warmup sets. Set 1-3: aim for RPE 8, 9, 10, respectively. Match or beat weight from week 2.

F) Finisher (10 min):
3 sets
Side Plank Hip Taps; 10-12 reps/side @20X0 Tempo
rest 15 sec
Copenhagen Plank; 30 sec/side
rest 15 sec
Suitcase Single Leg Standing Calf Raise; 10-15 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
The goal of this section is to focus on the quality of contractions of the smaller muscles in your lower body. You can push to failure, but make sure to keep the quality high.

G) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Friday, July 10th, 2026

Week 4 Day 5 - Persist PUMP LIFT 4x

A) Daily Focus Notes:

Barbell Strict Press
This is the heavier barbell strict press week. Reps drop from Week 2, which means weight goes up. The last set should be a true RPE 10. If you hit Week 2 well, add a small amount and see what you can do.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
Dip Support; 15-30 sec
Single Arm Ring Row; 10 reps/side

C) Strength Intensity 1 (12-14 min):
4 Sets
Barbell Strict Press; 6-8 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Set 1-4: aim for RPE 8, 8, 9, 10, respectively. Aim to increase reps or weight from week 2.

D) Strength Intensity 2 (12 min):
3 sets
Supinated Barbell Bent Over Row; 10-15 reps @20X0 Tempo
rest 15 sec
Supinated Pull Up Isometric or Ring Row Hold; 20-30 sec
rest 2 min between sets
Loading Note:
Perform 1 warmup set for each movement. Aim for each set to be close to failure within the rep range.

E) Strength Balance (15 min):
3 sets
DB Arnold Press; 8-10 reps @20X0 Tempo
rest 15 sec
DB Full Raise; 12-15 reps @20X0 Tempo
rest 15 sec
Cable or Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:

Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure. Aim to increase total reps or weight from week 2.

F) Finisher (10 min):
3 sets
Barbell Overhead Tricep Extension (seated or standing); 6-10 reps @40X0 Tempo
rest 15 sec
Barbell Preacher Curl; 12-15 reps @21X1 Tempo or KB Horn Grip Curl; 20-30 reps
rest 60 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
Childs Pose w Lat Stretch; 30 sec/side
Thread the Needle; 5 reps/side
Prayer Stretch; 30-60sec

Saturday, July 11th, 2026

Week 4 Day 6 - Persist PUMP LIFT 4x

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse
30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip External Rotation
Weighted Butterfly Stretch x 2 min
Supine Figure 4 Stretch x 1-2 min/side
Shinbox ER Stretch x 1-2 min/side
Shinbox Thoracic Rotation x 5-10 reps/side
Shinbox Rear Leg ER x 5-10 reps/side
Elevated Pigeon Stretch x 1-2 min/side
Sidelying Active Hip ER x 5 reps/side

Sunday, July 12th, 2026

Week 4 Day 7 - Persist PUMP LIFT 4x

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus

Pump Lift 3x

Monday, July 7th, 2026

Week 4 Day 1 - Persist PUMP LIFT 3x

A) Daily Focus Notes:
Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There is also an additional working set, for a total of four. The rack pull rewards good bracing and a strong lockout, so don't

rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity 1 (12 min):
4 Sets
Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 8, 8, 9, and 10, respectively. The reps have decreased from Week 2, aim to increase weight.

D) Strength Intensity 2 (15 min):
3 sets
Barbell Strict Press; 8 reps @20X0 Tempo
rest 15 sec
DB Full Raise; 12-15 reps @20X0 Tempo
rest 15 sec
Cable or Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:
Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure.

E) Strength Balance (12 min):
3 sets
DB Rack Tall Kneel to Stand; 10 reps/side @20X1 Tempo
directly into
DB Rack Curtsy Squat; 10 reps/side @20X1 Tempo
rest 90-120 sec between sets
Loading Note:

Perform 1-2 warmup sets. Set 1-3, aim for RPE 8,9,10 respectively. Match or beat weight from week 2.

F) Finisher (10 min):
3 sets
Hanging Leg Raise; 10-15 reps @21X1 Tempo
rest 15-30 sec
Decline or Weighted Feet Anchored Sit Up; 10-15 reps @20X0 Tempo
rest 60-90 sec and back to 1.
Loading Note:
Aim for each noncomplimentary superset to be close to failure.

G) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Tuesday, July 8th, 2026

Week 4 Day 2 - Persist PUMP LIFT 3x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Wednesday, July 9th, 2026

Week 4 Day 3 - Persist PUMP LIFT 3x

A) Daily Focus Notes:

1-1/4 Bench Press Progression
The 1-1/4 bench press returns with reps dropping from six to five, so the load goes up from Week 2. By now, the movement pattern should feel more familiar. The quarter rep at the bottom is still the hardest part. Don't rush through it. Control the bar all the way down, press a quarter, lower again, then press fully. That rhythm is where the stimulus lives.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity 1 (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4: aim for RPE 7, 8, 9, 10, respectively. Aim to increase weight from Week 2.

D) Strength Intensity 2 (12 min):
3 sets
DB Suitcase Walking Lunge; 10-12 reps/side @20X0 Tempo
rest 15-30 sec
DB Suitcase Cyclist Squat; 10-12 reps @20X0 Tempo
rest 2 minutes between sets
Loading Note:
The goal here is high volume on the legs. The grip may be a limiter for some of you, so we recommend using weightlifting straps to get the most out of this section. Aim for each noncomplimentary set to be close to failure. Aim to increase reps or weight from week 2.

E) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:

Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference between the two movements; one will be more upper back focused (meadow), the other will be more lat focused.

F) Finisher (12 min):
3 sets
Barbell B Stance Hip Thrust (Left); 10-12 reps @20X1 Tempo
rest 15 sec
Barbell B Stance Hip Thrust (Right); 10-12 reps @20X1 Tempo
rest 15 sec
Alternating Single Arm KB Split Stance Swing; 10-12 reps/side OR Russian KB Swings; 15-25 reps
Rest 2 minutes between sets
Loading Note:
Perform just a few reps of each movement to get familiar. For Set 1-3, aim for RPE 8, 9, and 10, respectively. Aim to increase reps or weight from Week 2.

G) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Thursday, July 10th, 2026

Week 4 Day 4 - Persist PUMP LIFT 3x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or, if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip External Rotation
Weighted Butterfly Stretch x 2 min
Supine Figure 4 Stretch x 1-2 min/side
Shinbox ER Stretch x 1-2 min/side
Shinbox Thoracic Rotation x 5-10 reps/side
Shinbox Rear Leg ER x 5-10 reps/side
Elevated Pigeon Stretch x 1-2 min/side

Sidelying Active Hip ER x 5 reps/side

Friday, July 11th, 2026

Week 4 Day 5 - Persist PUMP LIFT 3x

A) Daily Focus Notes:
Pause Back Squat Progression
The pause squat returns with RPE climbing to 8-9 across all sets. This is slightly harder than Week 2. The tempo and pause length stay the same. Use Week 2 as your baseline and aim to match or beat that weight. With four weeks of squatting in this cycle, your body should be well-adapted to the movement. Trust that and keep honest to that pause in the hole.
Short on time? Remove Strength Balance or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity 1 (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week focus on perfect positions and sticking to the tempo.

D) Strength Intensity 2 (10-12 min):
3-4 sets
Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets
Loading Note:
Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2.

E) Strength Balance (12 min):
3 sets
Strict Bar Dip or Ring Dip; 10-15 reps @20X0 Tempo
rest 15 sec
Deficit or Parallette Push Up; 10-20 reps @20X0 Tempo
rest 90 sec and back to 1.

Loading Note:
Perform 1 warmup set of each movement. Aim for each set to be close to failure within the prescribed rep range. Aim to match or increase total reps from Week 2.

F) Finisher (10 min):
3 sets
Alternating Dumbbell Curl; 6 reps/side @30X0 Tempo
rest 15 sec
Dumbbell Hammer Curl; 12-15 reps @20X0 Tempo
rest 15 sec
Single Arm Farmer's Walk; 20-30m/side
rest 60-90 sec
Loading Note:
Perform 1 warmup set of each movement. Aim for each set to be close to failure on each movement.

G) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec

Saturday, July 12th, 2026

Week 4 Day 6 - Persist PUMP LIFT 3x

A) Active Recovery Work:
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse

30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION:
Shoulder Extension
Passive Hang x 1 min
Seated Shoulder Extension Stretch x 1-2 min
Banded Shoulder Extension x 10 reps
Prone I Raise x 5 reps with 5 sec hold
Behind the Back Shoulder Stretch x 1 min/side
PVC Active + Passive Shoulder Extension x 5-10 reps

Sunday, July 13th, 2026

Week 4 Day 7 - Persist PUMP LIFT 3x

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Marcus

Pump Condition 5x

Monday, July 6th, 2026

Week 4 Day 1 - Persist PUMP CONDITION 5x

A) Daily Focus Notes:

Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There's also an additional working set — four total. The rack pull rewards good bracing and a strong lockout, so don't rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position, which makes the progression clean.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity (12 min):
4 Sets
Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 8, 8, 9, and 10, respectively. The reps have decreased from Week 2, aiming to increase weight.

D) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference between the two movements: one will be more upper back focused (meadow), the other will be more lat focused.

E) Conditioning (15-16 min):
7min As Many Reps As Possible AMRAP
500/350m Row Buy In (Male/Female)

-then in the time remaining-
2-4-6-8-10....
Mixed Grip Strict Pull Up (switch grip every round)
Single Arm Alternating Dumbbell Power Clean (R+L=1)
rest 2 minutes and then repeat for a second 7-minute AMRAP
Effort Note:
Start a timer for 7 minutes. Perform the Row Buy In, then continue alternating between the Mixed Grip Strict Pull Up and Single Arm Alternating Dumbbell Power Clean for the remainder of the 7 minutes. The reps will increase by two each round. When the 7 minute timer is up, rest for two minutes, then repeat the entire 7 minute AMRAP again, starting with the Row Buy In.

F) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Child's Pose Lat Stretch; 30 sec/side

Tuesday, July 7th, 2026

Week 4 Day 2 - Persist PUMP CONDITION 5x

A) Daily Focus Notes:
Incline DB Bench + Incline DB Fly
This week, the order flips from Week 2. The press goes first while the chest is fresh, then the fly stretches it at the end. Because the chest is already fatigued from the press, even a lighter weight on the fly will produce a strong stimulus. Do not rush between the two.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4, aim for RPE 7,8,9,10 respectively. Aim to increase weight from Week 2.

D) Strength Balance (12 min):
3 sets
Incline Dumbbell Bench Press; 10-12 reps @20X0 Tempo
directly into
Incline Dumbbell Fly; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to be close to failure. Try to use the same weight for both exercises with no rest between. If you need to adjust weight, take no more than 10-15 sec between movements.

E) Conditioning (15 min):
Every 2 min x 7 sets
5 Shuttle Run or 100m Run
8 Barbell Skullcrusher
8 Ring Push Up
20 sec Ring Plank
Effort Note:
Every 2 min you begin a new set. Complete the 4 prescribed movements at a fast but sustainable pace, aiming to finish in less than 90 seconds, with at least 30 seconds of rest between sets. The weight selected for the Barbell Skullcrusher should be challenging, but unbroken on each set.
*Shuttle Run: Mark two points 10m apart. 1 rep = there and back.

F) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec

Wednesday, July 8th, 2026

Week 4 Day 3 - Persist PUMP CONDITION 5x

A) Daily Focus Notes:
B-Stance Hip Thrust + KB Swing
The B-stance hip thrust loads one glute at a time with the other foot just along for the ride. Moving straight into KB swings keeps the hips working through a completely different pattern. By the time the swings are done, the glutes have been under a lot of sustained demand.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week focus on perfect positions and sticking to the tempo.

D) Strength Balance (12 min):
3 sets
Barbell B Stance Hip Thrust (Left); 10-12 reps @20X1 Tempo
rest 15 sec
Barbell B Stance Hip Thrust (Right); 10-12 reps @20X1 Tempo
rest 15 sec
Alternating Single Arm KB Split Stance Swing; 10-12 reps/side OR Russian KB Swings; 15-25 reps.
rest 2 minutes between sets
Loading Note:
Perform just a few reps of each movement to get familiar. For Set 1-3, aim for RPE 8,9,10 respectively. Aim to increase reps or weight from Week 2.

E) Conditioning (15-20 min):
3-4 Sets x 3 min AMRAP
10 Box Jump Over
6 Right Leg Goblet Cossack Lunge
6 Left Leg Goblet Cossack Lunge
800m/640m Bike (Male/Female)
in remaining time:
Hollow Body KB Pullover
rest 2mins between sets
Effort Note:
Start a timer for 3 minutes. Complete the Box Jump Overs and Goblet Cossack Lunges, then the 800m/640m Bike. In the remaining time of the 3 minutes, perform as many Hollow Body KB Pullovers as possible. Rest 2 minutes before starting another 3 minute timer. Complete this

sequence for 3-4 total sets. For the weighted movements, select a weight that is about an RPE 7 for the first set. You may use different weights for each movement.

F) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Thursday, July 9th, 2026

Week 4 Day 4 - Persist PUMP CONDITION 5x

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse
30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Friday, July 10th, 2026

Week 4 Day 5 - Persist PUMP CONDITION 5x

A) Daily Focus Notes:
Barbell Strict Press + Full Raise + Face Pull
Three shoulder exercises in a row with almost no rest between them. The press hits the front and top of the shoulder under a heavy load. The full raise shifts to a lighter arc through the whole range. The face pull finishes off the back of the shoulder. The goal is to work through all three without stopping.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
Dip Support; 15-30 sec
Single Arm Ring Row; 10 reps/side

C) Strength Intensity (10-12 min):
3-4 sets
Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets
Loading Note:
Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2.

D) Strength Balance (15 min):
3 sets
Barbell Strict Press; 8 reps @20X0 Tempo
rest 15 sec
DB Full Raise; 12-15 reps @20X0 Tempo
rest 15 sec
Cable or Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:
Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure.

E) Conditioning (15 min):
For Time

1-2-3-4-3-2-1
Turkish Get Up R
2-4-6-8-6-4-2
KB Snatch R (from top of last TGU rep)
1-2-3-4-3-2-1
Turkish Get Up L
2-4-6-8-6-4-2
KB Snatch L (from top of last TGU rep)
*10 GHD Sit Up after each round
15 min time cap.
Effort Note:
The heart rate should not spike very high during this conditioning piece. Each movement is intentionally designed to slow you down. Try to move consistently throughout the entire workout. Select a weight for the Turkish Get Up and KB Snatch that is challenging but you can complete unbroken for at least the first 10 minutes of the workout. The format of this workout goes as follows: 1 Turkish Get Up Right, 2 KB Snatch Right, 1 Turkish Get Up Left, 2 KB Snatch Left, 10 GHD Sit Ups, then back to the top, 2 Turkish Get Up Right, 4 KB Snatch Right...

F) Cooldown (5 min):
1-2 sets
Childs Pose w Lat Stretch; 30 sec/side
Thread the Needle; 5 reps/side
Prayer Stretch; 30-60sec

Saturday, July 11th, 2026

Week 4 Day 6 - Persist PUMP CONDITION 5x

A) Daily Focus Notes:
DB Rack Tall Kneel to Stand + KOT Squat
The tall kneel to stand pushes through one hip at a time and requires real stability to stand tall at the top. The KOT squat follows with the knee driving as far forward as possible. Together, they cover two of the most demanding positions for the hip and knee that rarely get direct work.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Shinbox Switch; 5-10 reps/side
Single Leg Banded Adduction; 10-15 reps/side

C) Strength Intensity (15 min):
4 sets
Front Squat; 8 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4: aim for RPE 7, 8, 9, 10, respectively. Aim to match or beat the weight from week 2.

D) Strength Balance (12 min):
3 sets
DB Rack Tall Kneel to Stand; 10 reps/side @20X1 Tempo
rest 30 sec
Assisted KOT Squat; 10-15 reps @30X0 Tempo
rest 60-90 sec
Loading Note:
Perform 1 warmup set of each movement to determine the starting weight. Set 1-3: aim for RPE 7, 8, 9, respectively.

E) Conditioning (15 min):
For Time
Row 100/80 Cals (Male/Female)
60 Jump Lunges
100 Double Unders or 140 Single Unders
60 GHD Sit Ups OR Feet Anchored Sit Up
*15min Time Cap
Effort Note:
For this conditioning piece, the heart rate is meant to be high, and the goal is to keep moving. With bodyweight movements, it is easier for non stop movement even when the legs or core are fatigued. This workout will allow you to test the progress you have made with bodyweight movements in the past 4 weeks. This workout is only 1 round, meaning you will complete each movement once before moving on to the next movement.

F) Cooldown (5 min):
1-2 sets
Middle Split; 60 sec
Front Split Progression; 30 sec/side

Sunday, July 12th, 2026

Week 4 Day 7 - Persist PUMP CONDITION 5x

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus

Pump Condition 4x

Monday, July 6th, 2026

Week 4 Day 1 - Persist PUMP CONDITION 4x

A) Daily Focus Notes:
Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There is also an additional working set, four total. The rack pull rewards good bracing and a strong lockout, so don't rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity (12-15 min):
4 Sets

Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 8, 8, 9, and 10, respectively. The reps have decreased since Week 2, with the aim of increasing weight.

D) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference between the two movements, one will be more upper back focused (meadow), the other will be more lat focused.

E) Conditioning (15 min):
7min As Many Reps As Possible AMRAP
500/350m Row Buy In (Male/Female)
-then in the time remaining-
2-4-6-8-10....
Mixed Grip Strict Pull Up (switch grip every round)
Single Arm Alternating Dumbbell Power Clean (R+L=1)
rest 2 minutes and then repeat for a second 7-minute AMRAP
Effort Note:
Start a timer for 7 minutes. Perform the Row Buy In, then continue to move back and forth between the Mixed Grip Strict Pull Up and Single Arm Alternating Dumbbell Power Clean for the remainder of the 7 minutes. The reps will increase by two each round. When the 7 minute timer is up, rest for two minutes, then repeat the entire 7 minute AMRAP again, starting with the Row Buy In.

F) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Tuesday, July 7th, 2026

Week 4 Day 2 - Persist PUMP CONDITION 4x

A) Daily Focus Notes:
Bench Press + Fly
This week, the order flips from Week 2. The incline press goes first while the chest is fresh. The fly follows with no weight change and no rest. This order matters because the fly at the end of a pre-fatigued set reaches a depth of stretch the press alone cannot produce.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4: aim for RPE 7, 8, 9, and 10, respectively. Aim to increase weight from Week 2.

D) Strength Balance (12 min):
3 sets
Incline Dumbbell Bench Press; 10-12 reps @20X0 Tempo
directly into
Incline Dumbbell Fly; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine starting weight. Aim for each set to be close to failure. Try to use the same weight for both exercises with no rest between. If you need to adjust weight, take no more than 10-15 sec between movements.

E) Conditioning (15 min):
Every 2 min x 7 sets
5 Shuttle Run or 100m Run
8 Barbell Skullcrusher
8 Ring Push Up

20 sec Ring Plank
Effort Note:
Every 2 min you begin a new set. Complete the 4 prescribed movements at a fast but sustainable pace with the goal of completing in less than 90 seconds, allowing for at least 30 seconds of rest between sets. The weight selected for the Barbell Skullcrusher should be challenging, but unbroken on each set.
*Shuttle Run: Mark two points 10m apart. 1 rep = there and back.

F) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec

Wednesday, July 8th, 2026

Week 4 Day 3 - Persist PUMP CONDITION 4x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 Min):
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Thursday, July 9th, 2026

Week 4 Day 4 - Persist PUMP CONDITION 4x

A) Daily Focus Notes:
B-Stance Hip Thrust + KB Swing
The B-stance hip thrust loads one glute at a time with the other foot just along for the ride. Moving straight into KB swings keeps the hips working through a completely different pattern. By the time the swings are done, the glutes have been under a lot of sustained demand.

Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week focus on perfect positions and sticking to the tempo.

D) Strength Balance (12 min):
3 sets
Barbell B Stance Hip Thrust (Left); 10-12 reps @20X1 Tempo
rest 15 sec
Barbell B Stance Hip Thrust (Right); 10-12 reps @20X1 Tempo
rest 15 sec
Alternating Single Arm KB Split Stance Swing; 10-12 reps/side OR Russian KB Swings; 15-25 reps
Rest 2:00 minutes between sets
Loading Note:
Perform just a few reps of each movement to get familiar. For Set 1-3, aim for RPE 8,9,10 respectively. Aim to increase reps or weight from Week 2.

E) Conditioning (15-20 min):
3-4 Sets x 3 min As Many Reps As Possible AMRAP
10 Box Jump Over
6 Right Leg Goblet Cossack Lunge
6 Left Leg Goblet Cossack Lunge
800m/640m Bike (Male/Female)
in remaining time:
Hollow Body KB Pullover
rest 2mins between sets
Effort Note:
Start a timer for 3 minutes. Complete the Box Jump Overs and Goblet Cossack Lunges, then the 800m/640m Bike. In the remaining time of the 3 minutes, perform as many Hollow Body KB

Pullovers as possible. Rest 2 minutes before starting another 3 minute timer. Complete this sequence for 3-4 total sets. For the weighted movements, select a weight that is about an RPE 7 for the first set. You may use different weights for each movement.

F) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Friday, July 10th, 2026

Week 4 Day 5 - Persist PUMP CONDITION 4x

A) Daily Focus Notes:
Barbell Strict Press + Full Raise + Face Pull
Three shoulder exercises in a row with almost no rest between them. The press hits the front and top of the shoulder under heavy load. The full raise shifts to a lighter arc through the whole range. The face pull finishes off the back of the shoulder. The goal is to work through all three without stopping.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
Dip Support; 15-30 sec
Single Arm Ring Row; 10 reps/side

C) Strength Intensity (10-12 min):
3-4 sets
Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets
Loading Note:
Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2.

D) Strength Balance (15 min):
3 sets
Barbell Strict Press; 8 reps @20X0 Tempo
rest 15 sec

DB Full Raise; 12-15 reps @20X0 Tempo
rest 15 sec
Cable or Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:
Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure.

E) Conditioning (15 min):
For Time
1-2-3-4-3-2-1
Turkish Get Up R
2-4-6-8-6-4-2
KB Snatch R (from top of last TGU rep)
1-2-3-4-3-2-1
Turkish Get Up L
2-4-6-8-6-4-2
KB Snatch L (from top of last TGU rep)
*10 GHD Sit Up after each round
15 min time cap.
Effort Note:
The heart rate should not spike very high during this conditioning piece. Each movement is intentionally designed to slow you down. Try to move consistently throughout the entire workout. Select a weight for the Turkish Get Up and KB Snatch that is challenging but you can complete unbroken for at least the first 10 minutes of the workout. The format of this workout goes as follows: 1 Turkish Get Up Right, 2 KB Snatch Right, 1 Turkish Get Up Left, 2 KB Snatch Left, 10 GHD Sit Ups, then back to the top, 2 Turkish Get Up Right, 4 KB Snatch Right...

F) Cooldown (5 min):
1-2 sets
Childs Pose w Lat Stretch; 30 sec/side
Thread the Needle; 5 reps/side
Prayer Stretch; 30-60sec

Saturday, July 11th, 2026

Week 4 Day 6 - Persist PUMP CONDITION 4x

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort

30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse
30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip External Rotation
Weighted Butterfly Stretch x 2 min
Supine Figure 4 Stretch x 1-2 min/side
Shinbox ER Stretch x 1-2 min/side
Shinbox Thoracic Rotation x 5-10 reps/side
Shinbox Rear Leg ER x 5-10 reps/side
Elevated Pigeon Stretch x 1-2 min/side
Sidelying Active Hip ER x 5 reps/side

Sunday, July 12th, 2026

Week 4 Day 7 - Persist PUMP CONDITION 4x

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus

Pump Condition 3x

Monday, July 7th, 2026

Week 4 Day 1 - Persist PUMP CONDITION 3x

A) Daily Focus Notes:
Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There is also an additional working set, four total. The rack pull rewards good bracing and a strong lockout, so don't rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity (12 min):
4 Sets
Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 8, 8, 9, and 10, respectively. The reps have decreased since Week 2, as the aim is to increase weight.

D) Strength Balance (15 min):
3 sets
Barbell Strict Press; 8 reps @20X0 Tempo
rest 15 sec
DB Full Raise; 12-15 reps @20X0 Tempo

rest 15 sec
Cable or Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:
Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure.

E) Conditioning (15-20 min):
3-4 Sets x 3 min AMRAP
10 Box Jump Over
6 Right Leg Goblet Cossack Lunge
6 Left Leg Goblet Cossack Lunge
800m/640m Bike (Male/Female)
in remaining time:
Hollow Body KB Pullover
rest 2mins between sets
Effort Note:
Start a timer for 3 minutes. Complete the Box Jump Overs and Goblet Cossack Lunges, then the 800m/640m Bike. In the remaining time of the 3 minutes, perform as many Hollow Body KB Pullovers as possible. Rest 2 minutes before starting another 3 minute timer. Complete this sequence for 3-4 total sets. For the weighted movements, select a weight that is about an RPE 7 for the first set. You may use different weights for each movement.

F) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Tuesday, July 8th, 2026

Week 4 Day 2 - Persist PUMP CONDITION 3x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or, if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Flexors and Quads
Heel Sit x 1 min

Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Wednesday, July 9th, 2026

Week 4 Day 3 - Persist PUMP CONDITION 3x

A) Daily Focus Notes: Week 4 - 1-1/4 Bench Press Progression
The 1-1/4 bench press returns with reps dropping from six to five, so the load goes up from Week 2. By now, the movement pattern should feel more familiar. The bottom quarter rep is still the hardest part. Don't rush through it. Control the bar all the way down, press a quarter, lower again, then press fully. That rhythm is where the stimulus lives.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4, aim for RPE 7,8,9,10 respectively. Aim to increase weight from Week 2.

D) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference

between the two movements; one will be more upper back focused (meadow), the other will be more lat focused.

E) Conditioning (15 min):
For Time
Row 100/80 Cals (Male/Female)
60 Jump Lunges
100 Double Unders or 140 Single Unders
60 GHD Sit Ups OR Feet Anchored Sit Up
*15min Time Cap
Effort Note:
For this conditioning piece, the heart rate is meant to be high, and the goal is to keep moving. With bodyweight movements, it is easier for non stop movement even when the legs or core are fatigued. This workout will allow you to test the progress you have made with bodyweight movements in the past 4 weeks. This workout is only 1 round, meaning you will complete each movement once before moving on to the next movement.

F) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Thursday, July 10th, 2026

Week 4 Day 4 - Persist PUMP CONDITION 3x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or, if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip External Rotation
Weighted Butterfly Stretch x 2 min
Supine Figure 4 Stretch x 1-2 min/side
Shinbox ER Stretch x 1-2 min/side
Shinbox Thoracic Rotation x 5-10 reps/side
Shinbox Rear Leg ER x 5-10 reps/side
Elevated Pigeon Stretch x 1-2 min/side
Sidelying Active Hip ER x 5 reps/side

Friday, July 11th, 2026

Week 4 Day 5 - Persist PUMP CONDITION 3x

A) Daily Focus Notes:
Dip + Deficit Push Up
The dip is the heavier triceps-and-chest movement here. Moving straight into the deficit push up keeps both working through a deeper range than a standard push up allows. The extra depth on the push up stretches the chest at the bottom in a way that extends the stimulus well past what the dip alone could produce.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week, focus on perfect positions and sticking to the tempo.

D) Strength Balance (12 min):
3 sets
Strict Bar Dip or Ring Dip; 10-15 reps @20X0 Tempo
rest 15 sec
Deficit or Parallette Push Up; 10-20 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set of each movement. Aim for each set to be close to failure within the prescribed rep range. Aim to match or increase total reps from Week 2.

E) Conditioning (15 min):
Every 2 min x 7 sets
5 Shuttle Run or 100m Run
8 Barbell Skullcrusher
8 Ring Push Up

20 sec Ring Plank
Effort Note:
Every 2 min you begin a new set. Complete the 4 prescribed movements at a fast but sustainable pace, aiming to finish in less than 90 seconds, with at least 30 seconds of rest between sets. The weight selected for the Barbell Skullcrusher should be challenging, but unbroken on each set.
*Shuttle Run: Mark two points 10m apart. 1 rep = there and back.

F) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec/side

Saturday, July 12th, 2026

Week 4 Day 6 - Persist PUMP CONDITION 3x

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse
30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Shoulder Extension
Passive Hang x 1 min
Seated Shoulder Extension Stretch x 1-2 min
Banded Shoulder Extension x 10 reps

Prone I Raise x 5 reps with 5 sec hold
Behind the Back Shoulder Stretch x 1 min/side
PVC Active + Passive Shoulder Extension x 5-10 reps

Sunday, July 13th, 2026

Week 4 Day 7 - Persist PUMP CONDITION 3x

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus

Perform

Monday, July 6th, 2026

Week 4 Day 1 - Persist PERFORM

A) Daily Focus Notes:
Rack Pull Progression
Reps drop from six to five on the rack pull this week, so weight goes up. There is also an additional working set, four total. The rack pull rewards good bracing and a strong lockout, so don't rush the top of the pull. Squeeze the glutes hard at lockout on every rep. If the bar pins are set consistently with Week 2, you should be pulling from the exact same position.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):

2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Gymnastics HOT START (12 min):
Every 60 sec x 12 sets
Burpee Bar Muscle Up x 3-6 reps
Wall Facing Shoulder Taps x 20-30 sec
Bike 8-10 Cals (faster each set)
Effort Note: This section is meant to prioritize muscular endurance in the muscle-up under a bit of fatigue. If you cannot perform a muscle-up, you may substitute a Burpee C2B Pull Ups for 6-8reps.

D) Strength Intensity (12 min):
4 Sets
Rack Pull; 5 reps @30X0 Tempo; rest 90-120 sec between sets
Loading/Progression Note:
There is 1 additional working set this week. Perform 2-3 warmup sets prior to your first working set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. The reps have decreased since Week 2, with the aim of increasing weight.

E) Strength Balance (15 min):
3 sets
Bench Support Landmine Meadow; 6-8 reps/side @20X0 Tempo
rest 60 sec
Single Arm Landmine Row; 6-8 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles. There is a subtle difference between the two movements; one will be more upper back focused (meadow), the other will be more lat focused.

F) Conditioning (15 min):
7min AMRAP
500/350m Row Buy In (Male/Female)
-then in the time remaining-

2-4-6-8-10....
Mixed Grip Strict Pull Up (switch grip every round)
Alternating Single Arm Dumbbell Hang Power Clean to Push Press (R+L=1)
rest 2 minutes and then repeat for a second 7-minute AMRAP
Effort Note:
Come out with a controlled but fast pace on the row and then try to accumulate as much fatigue in the upper body as possible. Select a weight on the DB power clean that will be challenging, but will not force you to slow down. The pullup will likely be the item that slows you down first.

G) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Tuesday, July 7th, 2026

Week 4 Day 2 - Persist PERFORM

A) Daily Focus Notes:
Incline DB Bench + Incline DB Fly
This week, the order flips from Week 2. The press goes first while the chest is fresh, then the fly stretches it at the end. Because the chest is already fatigued from the press, even a lighter weight on the fly will produce a strong stimulus. Do not rush between the two.
Short on time? Remove Strength Balance or Chipper based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity (12 min):
4 Sets
1:1/4 Bench Press; 5 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4, aim for RPE 7,8,9,10 respectively. Aim to increase weight from Week 2.

D) Strength Balance (12 min):

3 sets
Incline Dumbbell Bench Press; 10-12 reps @20X0 Tempo
directly into
Incline Dumbbell Fly; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to be close to failure. Try to use the same weight for both exercises with no rest between. If you need to adjust weight, take no more than 10-15 sec between movements.

E) Chipper (20 min):
12-14-16-18-18-16-14-12
Cal Bike
Strict Bar Dip/Pushup
GHD Hip Extension
*Alternate between Dips and Pushups for each set.
Effort Note: The rep scheme builds up to 18 and then comes back down. The GHD hip extension added this week keeps the posterior chain working between every set of dips and push ups. Alternate between dips and push ups each set and pace the bike so you have enough left when the reps are at their highest.

F) Cooldown (5 min):
1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec

Wednesday, July 8th, 2026

Week 4 Day 3 - Persist PERFORM

A) Daily Focus Notes:
B-Stance Hip Thrust + KB Swing
The B-stance hip thrust loads one glute at a time with the other foot just along for the ride. Moving straight into KB swings keeps the hips working through a completely different pattern. By the time the swings are done, the glutes have been under a lot of sustained demand.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice

3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Speed Strength - Snatch (15-18 min):
Barbell Warm-up:
1-2 Sets (with Empty Barbell)
10 Snatch Grip Romanian Deadlift
10 BTN Snatch Press or BTN Snatch Push Press
10 Overhead Squat
10 sec Squatting Quad Snatch Grip Hold
10 sec Snatch Grip Overhead Hold
10 sec Overhead Squat Hold
Every 2:00 x 6 sets
1 Power Snatch + 2 Full Snatch
directly into
4 Burpee to Tuck Jump
rest until the next 2:00
Sets 1-2: Easy
Set 3-4: Moderate
Set 5-6: Challenging

D) Strength Intensity (12-15 min):
4 sets
Back Squat; 4-6 reps @24X1 Tempo; rest 2 min between sets
Loading Note:
Perform 3-4 warmup sets. Set 1-4, aim for RPE 8-9 on all sets. For this week focus on perfect positions and sticking to the tempo.

E) Strength Balance (12 min):
3 sets
Barbell B Stance Hip Thrust (Left); 10-12 reps @20X1 Tempo
rest 15 sec
Barbell B Stance Hip Thrust (Right); 10-12 reps @20X1 Tempo
rest 15 sec
Alternating Single Arm KB Split Stance Swing; 10-12 reps/side OR Russian KB Swings; 15-25 reps.
rest 2 minutes between sets
Loading Note:

Perform just a few reps of each movement to get familiar. For Set 1-3, aim for RPE 8, 9, and 10, respectively. Aim to increase reps or weight from Week 2.

F) Conditioning (15 min):
For Time
1200m Run
60 Jump Lunges
100 Double Unders or 140 Single Unders
50 Toes to Rings
*15min Time Cap
Effort Note:
For this conditioning piece, the heart rate is meant to be high and the goal is to keep moving. With bodyweight movements, it is easier for non stop movement even when the legs or core are fatigued. This workout will allow you to test the progress you have made with bodyweight movements in the past 4 weeks.

G) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Thursday, July 9th, 2026

Week 4 Day 4 - Persist PERFORM

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right
6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse

30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Friday, July 10th, 2026

Week 4 Day 5 - Persist PERFORM

A) Daily Focus Notes:
Seated DB Press + Lateral Raise + Reverse Fly
Three shoulder exercises in a row with almost no rest between them. The press hits the front and top of the shoulder. The lateral raise shifts to the side. The reverse fly finishes off the back. By the third exercise the shoulders will be pretty tired. That is the point.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
Dip Support; 15-30 sec
Single Arm Ring Row; 10 reps/side

C) Dynamic Effort Upper (12-15 min):
4-5 sets
Barbell Push Jerk; 6 reps @20X1 Tempo
rest 15 sec
Slam Ball; 8-10 reps
rest 60 sec and back to 1

D) Strength Intensity (10-12 min):
3-4 sets

Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets

Loading Note:

Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2.

E) Strength Balance (15 min):

3 sets

Seated or Back Supported DB Strict Press; 10-12 reps @20X0 Tempo

rest 15 sec

DB Full Raise; 12-15 reps @20X0 Tempo

rest 15 sec

Cable or Banded Face Pull; 12-15 reps @20X0 Tempo

rest 90-120 sec and back to 1.

Loading Note:

Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure. Aim to increase total reps or weight from week 2.

F) Conditioning (15 min):

For Time

1-2-3-4-3-2-1

Turkish Get Up R

2-4-6-8-6-4-2

KB Snatch R (from top of last TGU rep)

1-2-3-4-3-2-1

Turkish Get Up L

2-4-6-8-6-4-2

KB Snatch L (from top of last TGU rep)

*10 GHD Sit Up after each round

15 min time cap.

Effort Note:

The heart rate should not spike very high during this conditioning piece. Each movement is selected to intentionally slow you down. Try to move consistently throughout the entire workout. Select a weight for the Turkish Get Up and KB Snatch that is challenging, but you are able to complete unbroken for at least the first 10 minutes of the workout. The format of this workout goes as follows: 1 Turkish Get Up Right, 2 KB Snatch Right, 1 Turkish Get Up Left, 2 KB Snatch Left, 10 GHD Sit Ups, then back to the top, 2 Turkish Get Up Right, 4 KB Snatch Right...

G) Cooldown (5 min):

1-2 sets

Childs Pose w Lat Stretch; 30 sec/side
Thread the Needle; 5 reps/side
Prayer Stretch; 30-60sec

Saturday, July 11th, 2026

Week 4 Day 6 - Persist PERFORM

A) Daily Focus Notes:
DB Rack Tall Kneel to Stand + KOT Squat
The tall kneel to stand pushes through one hip at a time and requires real stability to stand tall at the top. The KOT squat follows with the knee driving as far forward as possible. Together they cover two of the most demanding positions for the hip and knee that rarely get direct work.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Shinbox Switch; 5-10 reps/side
Single Leg Banded Adduction; 10-15 reps/side

C) Speed Strength - Clean (15-18 min):
1-2 Sets (with Empty Barbell)
10 Romanian Deadlift
10 Strict Press
10 Front Squat
10 sec Squatting Quad Clean Grip Hold
10 sec Front Rack Hold
10 sec Front Squat Hold
Every 2:00 x 6 sets
3-5 Segment Muscle Clean
Sets 1-2: Easy
Set 3-4: Moderate
Set 5-6: Challenging

D) Strength Intensity (12 min):
3-4 sets
Front Squat; 8 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:

Perform 2-3 warmup sets. Set 1-4: aim for RPE 7, 8, 9, and 10, respectively. Aim to match or beat weight from week 2.

E) Strength Balance (12 min):
3 sets
DB Rack Tall Kneel to Stand; 10 reps/side @20X1 Tempo
rest 30 sec
Assisted KOT Squat; 10-15 reps @30X0 Tempo
rest 60-90 sec
Loading Note:
Perform 1 warmup set of each movement to determine starting weight. Set 1-3: aim for RPE 7, 8, and 9, respectively.

F) Conditioning (15 min):
3-4 Sets x 3 min AMRAP
10 Box Jump Over
6 Right Leg Goblet Cossack Lunge
6 Left Leg Goblet Cossack Lunge
800m/640m Bike (Male/Female)
in remaining time:
Hollow Body KB Pullover
rest 2mins between sets
Effort Note:
Aim for a consistent number of reps on each round. In order to do this you must pace the bike appropriately. For the weighted movements, select a weight that is about an RPE 7 for the first set. You may use different weights for each movement.

G) Cooldown (5 min):
1-2 sets
Middle Split; 60 sec
Front Split Progression; 30 sec/side

Sunday, July 12th, 2026

Week 4 Day 7 - Persist PERFORM

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus

Minimalist

Monday, July 7th, 2026

Week 4 Day 1 - Persist Minimalist

A) Daily Focus Notes:
DB Deadlift
Six sets of six today, but the rest is short — only 45 seconds between sets. That short rest is the point. The load stays the same across all six sets, but the accumulated fatigue makes each set progressively harder. Pick a weight that feels manageable early. By set five and six it should feel like work. Use straps if grip becomes the limiter.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
DB Jefferson Curl; 5 reps
Single Arm Banded/Cable Lat Pulldown; 12-15 reps/side

C) Strength Intensity (12 min):
6 sets
Dumbbell Deadlift; 6 reps @20X0 Tempo; rest 45 sec between sets
Loading Note:
Perform 1-2 warmup sets prior to your first working set. For Set 1-6, aim for RPE 6,6,7,7,8,9 respectively.

D) Strength Balance (15 min):
3 sets
Tripod DB Row; 6-10 reps/side @21X1 Tempo
rest 60 sec
Alternating DB Hammer Curl; 8-10 reps/side @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to close to failure within the rep range. Aim to increase weight from week 2. This is a noncomplimentary superset that should lead to a large accumulation of fatigue in the pulling muscles.

E) Conditioning (15 min):
2 Rounds For Time
40 Jump Lunges (20/side)
60 Mountain Climbers
100 Double Unders or 140 Single Unders
60 Feet Anchored Sit Up
*15min Time Cap
Effort Note:
For this conditioning piece, the heart rate is meant to be high and the goal is to keep moving. With bodyweight movements, it is easier for non stop movement even when the legs or core are fatigued. This workout will allow you to test the progress you have made with bodyweight movements in the past 4 weeks.

F) Cooldown (5 min):
1-2 sets
Pike Stretch; 30-60 sec
Banded Lat Stretch; 30 sec/side
Childs Pose Lat Stretch; 30 sec/side

Tuesday, July 8th, 2026

Week 4 Day 2 - Persist Minimalist

A) Daily Focus Notes:
Bench Press + Fly
This week, the order flips from Week 2. The incline press goes first while the chest is fresh. The fly follows without weight change or rest. This order matters because the fly at the end of a pre-fatigued set reaches a depth of stretch the press alone cannot produce.

Short on time? Remove Strength Intensity 2 or Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
90 sec Cardio of Choice
Ring Face Pull; 10-15 reps
DB Windmill Press; 6-10 reps/side

C) Strength Intensity 1 (12 min):
3-4 sets
1:1/4 DB Bench Press; 6 reps @20X0 Tempo; rest 90-120 sec between sets
Loading Note:
Perform 2-3 warmup sets. Set 1-4: aim for RPE 7, 8, 9, 10, respectively. Aim to increase weight from Week 2.

D) Strength Intensity 2 (12 min):
3 sets
Incline Dumbbell Fly; 10-12 reps @20X0 Tempo
directly into
Incline Narrow Grip DB Bench Press; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1 warmup set to determine the starting weight. Aim for each set to be close to failure. Try to use the same weight for both exercises with no rest between. If you need to adjust weight, take no more than 10-15 sec between movements.

E) Conditioning (12-15 min):
Every 2min x 6-7 sets
5 Shuttle Run or 100m Run
10 DB Skullcrusher
10 DB Push Up
20-30 sec DB Tall Plank Knee to Elbow
Effort Note:
Muscle fatigue in the upper body will likely be the limiter, meaning move quickly through the shuttle run and give yourself a bit more time on the pressing movements. Select a weight for the skullcrusher that is about an RPE 7-8 on the first set.
*Shuttle Run: Mark two points 10m apart. 1 rep = there and back.

F) Cooldown (5 min):

1-2 sets
Banded Cross Body Shoulder Stretch; 30 sec/side
Banded Single Arm Pec Stretch; 30 sec/side
Supine Bench Weighted Chest Opener; 30 sec

Wednesday, July 9th, 2026

Week 4 Day 3 - Persist Minimalist

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Flexors and Quads
Heel Sit x 1 min
Heel Sits x 10 reps
Reclining Hero Pose x 1-2 min
Half Kneeling Anterior Line Stretch x 1 min/side
Front Split x 1 min/side
Bottom of Squat Hold x 1 min

Thursday, July 10th, 2026

Week 4 Day 4 - Persist Minimalist

A) Daily Focus Notes:
Tall Kneel to Stand + Curtsy Squat
The tall kneel to stand works one leg at a time and requires good balance and hip strength to push up off the floor. The curtsy squat right after keeps the hips working in a different direction. Together, they build the kind of hip strength that carries over to everything you do on your feet.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
Single Leg Straight Leg Bridge Hold; 15-30 sec/side
BW Cyclist Pulse Squat; 30-45 sec

C) Strength Intensity (12-15 min):

3 sets
Patrick Step Level 1-3; 15 reps/side @21X0 Tempo
rest 30 sec
Assisted KOT Squat; 10-15 reps @30X0 Tempo
rest 60-90 sec
Loading Note:
Perform 1 warmup set of each movement to determine the starting weight. Set 1-3: aim for RPE 7, 8, 9, respectively.

D) Strength Balance (12 min):
3 sets
DB Rack Tall Kneel to Stand; 10 reps/side @20X1 Tempo
directly into
DB Rack Curtsy Squat; 10 reps/side @20X1 Tempo
rest 90-120 sec between sets
Loading Note:
Perform 1-2 warmup sets. Set 1-3: aim for RPE 8, 9, 10, respectively. Match or beat the weight from week 2.

E) Conditioning:
3 Sets x 3 min As Many Reps As Possible AMRAP
150-200m Run
10 Box Jump Step Down
6 Right Leg Goblet Cossack Squat
6 Left Leg Goblet Cossack Squat
in remaining time:
Hollow Body KB Pullover
rest 2mins between sets
Effort Note:
Aim for a consistent number of reps on each round. In order to do this, you must pace appropriately. For the weighted movements, select a weight that is about an RPE 7 for the first set. You may use different weights for each movement.

F) Cooldown (5 min):
1-2 sets
Couch Stretch; 30-60 sec/side
Butterfly Stretch; 60 sec
Elevated Pigeon Stretch; 30 sec/side

Friday, July 11th, 2026

Week 4 Day 5 - Persist Minimalist

A) Daily Focus Notes:
Strict Press + Full Raise + Face Pull
Three shoulder exercises in a row with almost no rest between them. The press hits the front and top of the shoulder under a heavy load. The full raise shifts to a lighter arc through the whole range. The face pull finishes off the back of the shoulder. The goal is to work through all three without stopping.
Short on time? Remove Strength Balance or Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
15 sec Cardio Sprint
Dip Support; 15-30 sec
Single Arm Ring Row; 10 reps/side

C) Strength Intensity (10-12 min):
3-4 sets
Pronated Strict Pull Up; 10-12 reps @20X0 Tempo; rest 90 sec between sets
Loading Note:
Perform 1 warmup set. For Set 1-4, aim for RPE 7, 8, 9, and 10, respectively. Aim to increase total reps from Week 2.

D) Strength Balance (15 min):
3 sets
Seated or Back Supported DB Strict Press; 10-12 reps @20X0 Tempo
rest 15 sec
DB Full Raise; 12-15 reps @20X0 Tempo
rest 15 sec
Banded Face Pull; 12-15 reps @20X0 Tempo
rest 90-120 sec and back to 1.
Loading Note:
Perform 1 warmup set for each movement. Aim for each noncomplimentary superset to be close to failure. Aim to increase total reps or weight from week 2.

E) Conditioning (15 min):
For Time

1-2-3-4-3-2-1
DB Turkish Get Up R
2-4-6-8-6-4-2
DB Snatch R (from top of last TGU rep)
1-2-3-4-3-2-1
DB Turkish Get Up L
2-4-6-8-6-4-2
DB Snatch L (from top of last TGU rep)
*10-15 Feet Anchored Sit Up after each round
15 min time cap.
Effort Note:
The heart rate should not spike very high during this conditioning piece. Each movement is intentionally designed to slow you down. Try to move consistently throughout the entire workout. Select a weight for the DB Turkish Get Up and DB Snatch that is challenging but you can complete unbroken for at least the first 10 minutes of the workout. The format of this workout goes as follows: 1 DB Turkish Get Up Right, 2 DB Snatch Right, 1 DB Turkish Get Up Left, 2 DB Snatch Left, 10-15 Feet Anchored Sit Ups, then back to the top, 2 DB Turkish Get Up Right, 4 DB Snatch Right...

F) Cooldown (5 min):
1-2 sets
Childs Pose w Lat Stretch; 30 sec/side
Thread the Needle; 5 reps/side
Prayer Stretch; 30-60sec

Saturday, July 12th, 2026

Week 4 Day 6 - Persist Minimalist

A) Active Recovery Work (40 min):
30 sec Run, Bike, Ski, or Row @ 75% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
30 sec Glute Bridge March
15 Tuck Ups
30 sec Run, Bike, Ski, or Row @ 80% effort
30 sec Walk
x 10 sets
2-3 Sets for Quality
6 Reverse Lunge to High Knee Right

6 Reverse Lunge to High Knee Left
20m Quadruped Crawl Reverse
30 sec Run, Bike, Ski, or Row @ 85% effort
30 sec Walk
x 10 sets

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip External Rotation
Weighted Butterfly Stretch x 2 min
Supine Figure 4 Stretch x 1-2 min/side
Shinbox ER Stretch x 1-2 min/side
Shinbox Thoracic Rotation x 5-10 reps/side
Shinbox Rear Leg ER x 5-10 reps/side
Elevated Pigeon Stretch x 1-2 min/side
Sidelying Active Hip ER x 5 reps/side

Sunday, July 13th, 2026

Week 4 Day 7 - Persist Minimalist

Progress isn't always visible. There are weeks where the scale doesn't move, where the weights feel the same, where nothing seems to be working. That's not failure. That's how this process actually goes.

The people who get where they want to be aren't the ones who had the perfect plan. They're the ones who kept going when it didn't feel like it was working. They zoomed out when everything felt stuck and trusted that the inputs would eventually produce the outputs.

Results come to people who stay consistent long enough to receive them. That's the real essential. Not the program, not the diet. The patience to keep showing up.

Warmly,
Marcus
