Persist Week of July 27, 2026

REMINDER: Persist is no longer accessible through ATOM. To continue using Persist, you must log in through our new app. If you have not received your login instructions or are experiencing any issues, please contact us at support@functional-bodybuilding.com. We will continue to send a PDF version of training in our Persist only weekly newsletters.

This document may be created in advance of edits to the ongoing tracks in Persist, so while we try to minimize these discrepancies as much as possible, the version displayed in our app is always the most up to date. As always, please reach out using the chat bubble in our FBB app or on our website at https://functional-bodybuilding.com if you have any questions about the programming. It may be helpful to look over the week ahead to make sure your questions are all answered in time for your workout.

Pump Lift 5x

Monday, July 27th, 2026

Week 3 Day 1 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Supinated Pull Up
This week returns to the heavy pull up cluster. Six sets across two RPE targets with reps decreasing as weight increases. The supinated grip keeps the biceps in a strong position on the bar. As reps go down across the sets, make the movement harder by adding weight or reducing assistance. The first three sets should feel clearly easier than the last three.
Short on time? Remove Finisher

B) Warmup:
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Single Leg Hand Support DB RDL; 6-8 reps/side
3. Body Row; 12-15 reps

C) Strength Intensity 1:
Conventional Deadlift
3 Working Sets; rest 2-3 min
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 4 reps @20X0 Tempo - Easy
Working Set 1 - 4 reps @20X0 Tempo - RPE 7
Working Set 2 - 4 reps @20X0 Tempo - RPE 8
Working Set 3 - 4 reps @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (12-15 min):

Pendlay Row
Every 2:30 x 4 Working Sets
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 9 @20X1 Tempo - RPE 7
Working Set 2 - 7 @20X1 Tempo - RPE 8
Working Set 3 - 5 @20X1 Tempo - RPE 9
Working Set 4 - Drop back to your Set 1 weight and perform Max Unbroken reps @20X1 Tempo (Aim for 8+ reps)

E) Strength Balance (10 min):
Supinated Strict Pull Up
Every 75 sec x 6 sets
Set 1: 5 reps @21X0 Tempo - RPE 8
Set 2: 3 reps @21X0 Tempo - RPE 8
Set 3: 2 reps @21X0 Tempo - RPE 8
Set 4: 5 reps @21X0 Tempo - RPE 9
Set 5: 3 reps @21X0 Tempo - RPE 9
Set 6: 2 reps @21X0 Tempo - RPE 9
Loading Note: As reps go down, make your pull-ups harder by adding weight or using less assistance. The goal of this session is to work on heavy/challenging pull ups. The first three sets should be lighter or easier than the last three sets. Aim to increase weight across the sets compared to previous weeks.

F) Finisher (8 min):
Barbell Reverse Cur
6 sets:
Every 45-60sec x 6 reps @20X0 Tempo
Loading Note: Select a weight that feels about RPE 7-8 on the first set.

G) Cooldown (5 min):
1-2 sets
1. Lumbar Roll to Pancake Stretch; 5 reps with 5 sec stretch
2. Single Arm Wall Prayer Stretch x 30 sec/side
3. Pigeon Stretch; 30-60 sec/side

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist PUMP LIFT 5x

A) Daily Focus Notes:

Barbell Skullcrusher + Hands on Bench Tricep Push Up
The skullcrusher loads the triceps at the bottom of the range where the long head is most stretched. Moving straight into the hands on bench push up keeps the triceps working through a more familiar pressing pattern while they are already fatigued. The elevated hand position on the push up reduces the depth slightly, which allows more reps before form breaks down. Push close to failure on both movements each set.
Short on time? Remove Finisher

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

C) Strength Intensity 1 (15 min):
Incline Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (12 min):
Narrow Grip Dumbbell Bench Press
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @30X0 Tempo - Easy
Working Set 1 - 8 reps @30X0 Tempo - RPE 8
Working Set 2 - 8 reps @30X0 Tempo - RPE 9
Working Set 3 - 8 reps @30X0 Tempo - RPE 10

E) Strength Balance (12 min):
3 sets
1. Barbell Skullcrusher; 8 reps @21X1 Tempo
rest 30 sec
2. Hands on Bench Tricep Push Up; 10-15 reps @20X0 Tempo
rest 90 sec and back to 1.

Loading Note: Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure. For the push ups you may take small breaks as needed.

F) Finisher (10 min):
2-3 sets
1. Supinated Dumbbell Front Raise; 10-12 reps @20X0 Tempo
rest 45 sec
2. DB Bent Over Elbowing Row; 12-15 reps @20X0 Tempo
rest 45 sec and back to 1.
Loading Note: Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Sidelying 90/90 Thoracic Rotation; 5 reps/side
2. Seated Shoulder Extension Stretch; 30 sec
3. Passive Hang; 30 sec

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Cossack Squat + Calf Raise
The Cossack squat loads one leg while the other stays straight, which demands hip strength and mobility through a wide lateral range. Moving into the calf raise immediately after keeps the lower leg working through a completely different pattern. The slow 21X1 tempo on both movements means one second up, one second at the top, and one second down. You may be tempted to rush through the reps, but the pause is where the real work happens. Use absolute strength to drive out of the bottom, not momentum.
Short on time? Remove Finisher

B) Warmup:
2 min Cardio of Choice
3 Sets
1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

C) Strength Intensity 1 (15 min):
Cyclist Back Squat
3 Working Sets; rest 2-3 min

Warm-Up Set - 10 reps @20X1 Tempo - Easy
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

D) Strength Intensity 2 (12 min):
Barbell Hip Thrust
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 8 reps @20X1 Tempo - RPE 8
Working Set 2 - 8 reps @20X1 Tempo - RPE 9
Working Set 3 - 8 reps @20X1 Tempo - RPE 10

E) Strength Balance (12 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
rest 60 sec
2. Seated Calf Raise; 12-15 reps @21X1 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

F) Finisher (10 min):
2-3 sets
1. Feet Anchored Sit Up; 12-15 reps @20X0 Tempo
rest 45 sec
2. Tuck L Sit; 30 sec or Single Leg Tuck L Sit; 10-15 sec/side
rest 45 sec and back to 1.
Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Slantboard Jefferson Pulse; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side

3. Shinbox Heel Touch; 5 reps/side

Thursday, July 30th, 2026

Week 3 Day 4 - Persist PUMP LIFT 5x

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right
- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat
then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Thoracic Mobility
Segmented Cat Cow x 5 reps
Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Friday, July 31st, 2026

Week 3 Day 5 - Persist PUMP LIFT 5x

A) Daily Focus Notes:

Single Arm DB Row + Seated Lateral Raise
Two movements that work the pulling and lateral systems back to back with a short rest between them. The single arm row builds thickness through the mid and upper back one side at a time. The seated lateral raise that follows targets the side delt, which rarely gets direct loading during the bigger pressing and pulling work earlier in the session. Keep the tempo slow on the lateral raise. A fast lateral raise becomes a shrug, which moves the work away from the delt.
Short on time? Remove Finisher

B) Warmup:
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Push Up With Shoulder Tap; 4-5 reps/side
3. Supinated Pull Up Isometric; 10 sec

C) Strength Intensity 1 (15 min):
Seated Filly Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (12 min):
Half Kneeling Landmine Press
3 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @30X0 Tempo - Easy
Working Set 1 - 7 reps/side @30X0 Tempo - RPE 8
Working Set 2 - 7 reps/side @30X0 Tempo - RPE 9
Working Set 3 - 7 reps/side @30X0 Tempo - RPE 10

E) Strength Balance (10 min):
3 sets
1. RNT Single Arm Dumbbell Row; 10 reps/side @21X1 Tempo
rest 30 sec
2. Poliquin Lateral Raise; 10-15 reps @30X0 Tempo
rest 90 sec and back to 1.

Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to failure.

F) Finisher (10 min):
2-3 sets
1. Seated Concentration Curl; 10-12 reps/side @20X0 Tempo
rest 45 sec
2. Dumbbell Overhead Tricep Extension; 10-12 reps @20X0 Tempo
rest 45 sec and back to 1.
Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Forward Shoulder Wall Circles; 10 reps/side
2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Saturday, August 1st, 2026

Week 3 Day 6 - Persist PUMP LIFT 5x

A) Daily Focus Notes:
Nordic Hamstring Curl + Heel Elevated Pistol Negative
Two of the most demanding lower body movements in this cycle back to back. The Nordic hamstring curl eccentrically loads the hamstrings through their full range, which is where most hamstring injuries occur. Lower as slowly as you can under control. The heel elevated pistol negative that follows challenges single leg strength through a full controlled descent with the heel raised. Keep the heel elevated throughout and lower with full control on every rep.
Short on time? Remove Finisher

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Forward Lunge; 6/side
3. Goblet Good Morning; 10 reps

C) Strength Intensity 1 (15 min):
Zercher Split Squat
3 Working Sets; rest 2-3 min

Warm-Up Set - 10 reps/side @20X0 Tempo - Easy
Working Set 1 - 10 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 8 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 6 reps/side @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (12 min):
Goblet Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 8
Working Set 2 - 10 reps @20X1 Tempo - RPE 9
Working Set 3 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.

E) Strength Balance (10 min):
3 sets
1. Assisted Nordic Hamstring Curl or BC Gliding Hamstring Curl; 8-10 reps @30X0 Tempo
rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo
rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

F) Finisher (8 min):
2-3 sets
1. Russian Twist; 10-15 reps/side
rest 45 sec
2. Side Plank Hip Taps; 20-30 sec/side
rest 45 sec and back to 1.
Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Half Split Hip Hinge; 6-8 reps/side
2. Weighted Ankle Stretch; 30 sec/side
3. Bottom of Squat Hold; 30 sec

Sunday, August 2nd, 2026

Week 3 Day 7 - Persist PUMP LIFT 5x

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Warmly,

Marcus

Pump Lift 4x

Monday, July 27th, 2026

Week 3 Day 1 - Persist PUMP LIFT 4x

A) Daily Focus Notes:
Barbell Skullcrusher + Hands on Bench Tricep Push Up
The skullcrusher loads the triceps at the bottom of the range where the long head is most stretched. Moving straight into the hands on bench push up keeps the triceps working through a more familiar pressing pattern while they are already fatigued. The elevated hand position on the push up reduces the depth slightly, which allows more reps before form breaks down. Push close to failure on both movements each set.
Short on time? Remove Finisher

B) Warmup (8 min):
3 Rounds

1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

C) Strength Intensity 1 (15 min):
Incline Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (12 min):
Pendlay Row
Every 2:30 x 4 Working Sets
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 9 @20X1 Tempo - RPE 7
Working Set 2 - 7 @20X1 Tempo - RPE 8
Working Set 3 - 5 @20X1 Tempo - RPE 9
Working Set 4 - Drop back to your Set 1 weight and perform Max Unbroken reps @20X1 Tempo (Aim for 8+ reps)

E) Strength Balance (10 min):
3 sets
1. Barbell Skullcrusher; 8 reps @21X1 Tempo
rest 30 sec
2. Hands on Bench Tricep Push Up; 10-15 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure. For the push ups you may take small breaks as needed.

F) Finisher (10 min):
2-3 sets
1. Supinated Dumbbell Front Raise; 10-12 reps @20X0 Tempo
rest 45 sec
2. DB Bent Over Elbowing Row; 12-15 reps @20X0 Tempo

rest 45 sec and back to 1.

Loading Note:

Aim for each set to be close to failure.

G) Cooldown (5 min):

1-2 sets

1. Sidelying 90/90 Thoracic Rotation; 5 reps/side
2. Seated Shoulder Extension Stretch; 30 sec
3. Passive Hang; 30 sec

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist PUMP LIFT 4x

A) Daily Focus Notes:

Cossack Squat + Calf Raise

The Cossack squat loads one leg while the other stays straight, which demands hip strength and mobility through a wide lateral range. Moving into the calf raise immediately after keeps the lower leg working through a completely different pattern. The slow 21X1 tempo on both movements means one second up, one second at the top, and one second down. You may be tempted to rush through the reps, but the pause is where the real work happens. Use absolute strength to drive out of the bottom, not momentum.

Short on time? Remove Finisher

B) Warmup (8 min):

2 min Cardio of Choice

3 Sets

1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

C) Strength Intensity 1 (15 min):

Cyclist Back Squat

3 Working Sets; rest 2-3 min

Warm-Up Set - 10 reps @20X1 Tempo - Easy

Warm-Up Set - 10 reps @20X1 Tempo - Easy

Working Set 1 - 10 reps @20X1 Tempo - RPE 7

Working Set 2 - 8 reps @20X1 Tempo - RPE 8

Working Set 3 - 6 reps @20X1 Tempo - RPE 9

RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

D) Strength Intensity 2 (12 min):
Barbell Hip Thrust
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 8 reps @20X1 Tempo - RPE 8
Working Set 2 - 8 reps @20X1 Tempo - RPE 9
Working Set 3 - 8 reps @20X1 Tempo - RPE 10

E) Strength Balance (10 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
rest 60 sec
2. Seated Calf Raise; 12-15 reps @21X1 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

F) Finisher (10 min):
2-3 sets
1. Feet Anchored Sit Up; 12-15 reps @20X0 Tempo
rest 45 sec
2. Tuck L Sit; 30 sec or Single Leg Tuck L Sit; 10-15 sec/side
rest 45 sec and back to 1.
Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Slantboard Jefferson Pulse; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side
3. Shinbox Heel Touch; 5 reps/side

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist PUMP LIFT 4x

A) Active Recovery Work (30 min):

Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION:
Thoracic Mobility
Segmented Cat Cow x 5 reps
Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Thursday, July 30th, 2026

Week 3 Day 4 - Persist PUMP LIFT 4x

A) Daily Focus Notes:
Narrow Grip DB Bench + Lateral Raise
Two movements back to back with a short rest between them. The narrow grip DB bench keeps the elbows in and loads the triceps through a full pressing range. The lateral raise that follows targets the side delt, which rarely gets direct loading during the bigger pressing work earlier in the session. Keep the tempo slow on the lateral raise. A fast lateral raise becomes a shrug, which moves the work away from the delt.
Short on time? Remove Finisher

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Push Up With Shoulder Tap; 4-5 reps/side
3. Supinated Pull Up Isometric; 10 sec

C) Strength Intensity 1 (15 min):
Seated Filly Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9

Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (8 min):
Supinated Strict Pull Up
Every 75 sec x 6 sets
Set 1: 5 reps @21X0 Tempo - RPE 8
Set 2: 3 reps @21X0 Tempo - RPE 8
Set 3: 2 reps @21X0 Tempo - RPE 8
Set 4: 5 reps @21X0 Tempo - RPE 9
Set 5: 3 reps @21X0 Tempo - RPE 9
Set 6: 2 reps @21X0 Tempo - RPE 9
Loading Note:
As reps go down, make your pull-ups harder by adding weight or using less assistance. The goal of this session is to work on heavy/challenging pull ups. The first three sets should be lighter or easier than the last three sets. This rep scheme will stay the same during odd weeks of this progression. Aim to increase weight across the sets compared to previous weeks.

E) Strength Balance (12 min):
3 Working Sets
1. Narrow Grip Dumbbell Bench Press; 10-12 reps @30X0
rest 30 sec
2. Dumbbell Lateral Raise; 10-12 reps @30X0
rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure.

F) Finisher (10 min):
2-3 sets
1. Seated Concentration Curl; 10-12 reps/side @20X0 Tempo
rest 45 sec
2. Dumbbell Overhead Tricep Extension; 10-12 reps @20X0 Tempo
rest 45 sec and back to 1.
Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Forward Shoulder Wall Circles; 10 reps/side

2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Friday, July 31st, 2026

Week 3 Day 5 - Persist PUMP LIFT 4x

A) Daily Focus Notes:
Nordic Hamstring Curl + Heel Elevated Pistol Negative
Two of the most demanding lower body movements in this cycle back to back. The Nordic hamstring curl eccentrically loads the hamstrings through their full range, which is where most hamstring injuries occur. Lower as slowly as you can under control. The heel elevated pistol negative that follows challenges single leg strength and balance through a slow, controlled descent. The heel elevation gives the ankle more room to work and keeps the knee tracking forward. Do not rush the descent. Touch down with control and reset before the next rep.
Short on time? Remove Finisher

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Forward Lunge; 6/side
3. Goblet Good Morning; 10 reps

C) Strength Intensity 1 (15 min):
Zercher Split Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps/side @20X0 Tempo - Easy
Working Set 1 - 10 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 8 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 6 reps/side @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (15 min):
Conventional Deadlift
3 Working Sets; rest 2-3 min
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 4 reps @20X0 Tempo - Easy
Working Set 1 - 4 reps @20X0 Tempo - RPE 7
Working Set 2 - 4 reps @20X0 Tempo - RPE 8

Working Set 3 - 4 reps @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

E) Strength Balance (10 min):
3 sets
1. Assisted Nordic Hamstring Curl or BC Gliding Hamstring Curl; 8-10 reps @30X0 Tempo
rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo
rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

F) Finisher (10 min):
2-3 sets
1. Russian Twist; 10-15 reps/side
rest 45 sec
2. Side Plank Hip Taps; 20-30 sec/side
rest 45 sec and back to 1.
Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Half Split Hip Hinge; 6-8 reps/side
2. Weighted Ankle Stretch; 30 sec/side
3. Bottom of Squat Hold; 30 sec
Week 3 Day 6 - Persist PUMP LIFT 4x

Saturday, August 1st, 2026

Week 3 Day 6 - Persist PUMP LIFT 4x

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right

- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat
then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Internal Rotation
1. Hip Sleeper Stretch x 1-2 min/side
2. Shinbox Hip IR Stretch x 1-2 min/side
3. Shinbox Active Hip IR Liftoff x 10 reps/side
4. Half Kneeling Weight Shift x 10 reps/side
5. Squat Hip Rotations x 10 reps
6. Supine Active Hip Internal Rotation x 5-10 reps/side

Sunday, August 9th, 2026

Week 3 Day 7 - Persist PUMP LIFT 4x

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Marcus

Pump Lift 3x

Monday, July 27th, 2026

Week 3 Day 1 - Persist PUMP LIFT 3x

A) Daily Focus Notes:
Goblet Cossack Squat + Barbell Hip Thrust
The Cossack squat loads one leg at a time through a wide lateral range that regular squatting rarely reaches. Keep the working heel flat and drive the knee in line with the toe through the full range. Moving into the hip thrust immediately after keeps the glutes working through a completely different pattern. By the time both are done, the hips have been under demand for a long time. The rest between the two movements is short by design.
Short on time? Remove Strength Balance, or Finisher based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

C) Strength Intensity 1 (15 min):
Incline Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (12 min):
Pendlay Row
Every 2:30 x 4 Working Sets
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 9 @20X1 Tempo - RPE 7
Working Set 2 - 7 @20X1 Tempo - RPE 8
Working Set 3 - 5 @20X1 Tempo - RPE 9

Working Set 4 - Drop back to your Set 1 weight/assistance and perform Max Unbroken reps @20X1 Tempo (Aim for 8+ reps)

E) Strength Balance (10 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
- rest 60 sec
2. Barbell Hip Thrust; 10 reps @21X1 Tempo
- rest 90 sec and back to 1.

Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

F) Finisher (10 min):
2-3 sets
1. Russian Twist; 10-15 reps/side
- rest 45 sec
2. Side Plank Hip Taps; 20-30 sec/side
- rest 45 sec and back to 1.

Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Couch Stretch; 30 sec/side
2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist PUMP LIFT 3x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION:
Thoracic Mobility
Segmented Cat Cow x 5 reps

Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist PUMP LIFT 3x

A) Daily Focus Notes:
Barbell Skullcrusher + Hands on Bench Tricep Push Up
The skullcrusher loads the triceps at the bottom of the range where the long head is most stretched. Moving straight into the hands on bench push up keeps the triceps working through a more familiar pressing pattern while they are already fatigued. The elevated hand position on the push up reduces the depth slightly, which allows more reps before form breaks down. Push close to failure on both movements in each set.
Short on time? Remove Strength Balance, or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

C) Strength Intensity 1 (15 min):
Cyclist Back Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

D) Strength Intensity 2 (8 min):
Supinated Strict Pull Up
Every 75 sec x 6 sets
Set 1: 5 reps @21X0 Tempo - RPE 8

Set 2: 3 reps @21X0 Tempo - RPE 8
Set 3: 2 reps @21X0 Tempo - RPE 8
Set 4: 5 reps @21X0 Tempo - RPE 9
Set 5: 3 reps @21X0 Tempo - RPE 9
Set 6: 2 reps @21X0 Tempo - RPE 9

Loading Note:
As reps go down, make your pull-ups harder by adding weight or using less assistance. The goal of this session is to work on heavy/challenging pull ups. The first three sets should be lighter or easier than the last three sets. This rep scheme will stay the same during odd weeks of this progression. Aim to increase weight across the sets compared to previous weeks.

E) Strength Balance (10 min):
3 sets
1. Barbell Skullcrusher; 8 reps @21X1 Tempo
- rest 30 sec
2. Hands on Bench Tricep Push Up; 10-15 reps @20X0 Tempo
- rest 90 sec and back to 1.

Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure. For the push ups you may take small breaks as needed.

F) Finisher (10 min):
2-3 sets
1. Supinated Dumbbell Front Raise; 10-12 reps @20X0 Tempo
- rest 45 sec
2. DB Bent Over Elbowing Row; 12-15 reps @20X0 Tempo
- rest 45 sec and back to 1.

Loading Note:
Aim for each set to be close to failure.

G) Cooldown (5 min):
1-2 sets
1. Shoulder Extension Stretch; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side
3. Shinbox Heel Touch; 5 reps/side

Thursday, July 30th, 2026

Week 3 Day 4 - Persist PUMP LIFT 3x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or, if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Internal Rotation
1. Hip Sleeper Stretch x 1-2 min/side
2. Shinbox Hip IR Stretch x 1-2 min/side
3. Shinbox Active Hip IR Liftoff x 10 reps/side
4. Half Kneeling Weight Shift x 10 reps/side
5. Squat Hip Rotations x 10 reps
6. Supine Active Hip Internal Rotation x 5-10 reps/side

Friday, July 31st, 2026

Week 3 Day 5 - Persist PUMP LIFT 3x

A) Daily Focus Notes:
Nordic Hamstring Curl + Heel Elevated Pistol Negative
Two of the most demanding lower body movements in this cycle back to back. The Nordic hamstring curl eccentrically loads the hamstrings through their full range, which is where most hamstring injuries occur. Lower as slowly as you can under control. The heel elevated pistol negative that follows challenges single leg strength and balance through a full controlled descent. Keep the heel elevated throughout, lowering with full control on every rep.
Short on time? Remove Strength Balance, or Finisher based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Single Leg Hand Support DB RDL; 6-8 reps/side
3. Body Row; 12-15 reps

C) Strength Intensity 1 (15 min):
Conventional Deadlift
3 Working Sets; rest 2-3 min
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 4 reps @20X0 Tempo - Easy
Working Set 1 - 4 reps @20X0 Tempo - RPE 7

Working Set 2 - 4 reps @20X0 Tempo - RPE 8
Working Set 3 - 4 reps @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Intensity 2 (15 min):
Seated Filly Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

E) Strength Balance (10 min):
3 sets
1. Assisted Nordic Hamstring Curl or BC Gliding Hamstring Curl; 8-10 reps @30X0 Tempo
- rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo
- rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

F) Finisher (8 min):
Barbell Reverse Curl
6 sets
Every 45-60sec x 6 reps @20X0 Tempo
Loading Note:
Select a weight that feels about RPE 7-8 on the first set.

G) Cooldown (5 min):
1-2 sets
1. Lumbar Roll to Pancake Stretch; 5 reps with 5 sec stretch
2. Single Arm Wall Prayer Stretch x 30 sec/side
3. Pigeon Stretch; 30-60 sec/side
Week 3 Day 6 - Persist PUMP LIFT 3x

Saturday, August 1st, 2026

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right
- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat
then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Squat Mobility
1. Shinbox Switch x 10 reps/side
2. Shinbox Thoracic Rotation x 5 reps/side
3. Shinbox Rear Leg ER + Shinbox Heel Touch x 5 reps/side
4. Downdog Calf Stretch x 10 reps/side
5. Weighted Ankle Stretch x 1-2 min/side
6. Frog Stretch x 1-2 min
7. Active Hip Flexion x 5 reps/side with 5 sec hold
8. Russian Babymaker x 10 reps
9. Squat Thoracic Rotations x 5 reps/side
10. Squat Hip Rotations x 10 reps/side

Sunday, August 2nd, 2026

Week 3 Day 7 - Persist PUMP LIFT 3x

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Warmly,

Marcus

Pump Condition 5x

Monday, July 27th, 2026

Week 3 Day 1 - Persist PUMP COND 5x

A) Daily Focus Notes:
Sprint Hinge Core
This section pairs a short cardio burst with a hinge movement and a core hold. The format is designed so each movement taxes a different system. The sprint spikes the heart rate. The hinge keeps the posterior chain engaged while breathing remains elevated. The core hold finishes the set under accumulated fatigue. That sequencing is intentional. Training the core and posterior chain while fatigued builds the kind of resilience that carries over outside the gym. Push the cardio pace each set and keep the other two movements at a consistent hard effort.
Short on time? Remove Strength Balance or Sprint Hinge Core based on your goals.

A) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Single Leg Hand Support DB RDL; 6-8 reps/side
3. Body Row; 12-15 reps

B) Strength Intensity (15 min):
Conventional Deadlift
3 Working Sets; rest 2-3 min

Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 4 reps @20X0 Tempo - Easy
Working Set 1 - 4 reps @20X0 Tempo - RPE 7
Working Set 2 - 4 reps @20X0 Tempo - RPE 8
Working Set 3 - 4 reps @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

C) Strength Balance (10 min):
Every 75 sec x 6 (3 sets each)
1. Pendlay Row; 6 reps @30X0 Tempo
2. Supinated Strict Pull Up; 4 reps @21X1 Tempo

Loading Note:
Pull Up and Pendlay Row reps are heavy this week with the goal of pushing the intensity on both movements. Aim for the first set of each to be about RPE 7-8. Then you can increase the weight or keep it the same for the remaining sets, depending on how much intensity you want to push today. The Pendlay Row has increased in reps from Week 1, and aim to match the same weight. The Pull Up has decreased in reps from Week 1; aim to increase weight or decrease assistance. This format is 3 sets of each movement. Only perform one exercise every 75 seconds.

D) Sprint Hinge Core (15 min):
4 Sets
Bike 6-10 Calories @ HIGH TEMPO
rest 15sec
Alternating Single Arm Devils Press x 8 reps
rest 30sec
Single Arm Ring Plank x 20-30sec/side
rest walk 90sec
Effort Note:
The goal for this conditioning is to push the pace on the cardio machine. The intensity should start relatively high and increase each set. The additional movements should be performed at a consistent but hard pace. The rest is intentional to allow for the higher outputs.

E) Cooldown (5 min):
1-2 sets
1. Lumbar Roll to Pancake Stretch; 5 reps with 5 sec stretch
2. Single Arm Wall Prayer Stretch x 30 sec/side
3. Pigeon Stretch; 30-60 sec/side

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist PUMP COND 5x

A) Daily Focus Notes:
High Turnover Push
This section alternates between a cardio machine and pushing movements. The format is designed to keep the heart rate elevated while the pushing muscles accumulate volume under fatigue. The row offers a partial break for the pressing muscles. Use it to control your breathing and reset before the next set of push work, but do not expect a full shoulder recovery between movements. The goal is smooth transitions and consistent effort across every set.
Short on time? Remove Strength Balance or High Turnover Push based on your goals.

A) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

B) Strength Intensity (15 min):
Incline Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

C) Strength Balance (10 min):
3 sets
1. Barbell Skullcrusher; 8 reps @21X1 Tempo
rest 30 sec
2. Narrow Grip DB Bench Press; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure.

D) High Turnover Push (12 min):
5 min As Many Reps As Possible AMRAP

10/8 Row Calories (Male/Female) @ high effort
8-10 Ring Push Ups
rest 2 minutes between AMRAP
5 min AMRAP
10/8 Row Calories @ high effort
6-8 Inchworm Push Up
Effort Note:
Prioritize smooth transitions during this conditioning piece. The workouts will frequently switch between movements. The movements within each AMRAP are complementary. This will allow you to push the intensity while resting the body region that was just working.

E) Cooldown (5 min):
1-2 sets
1. Sidelying 90/90 Thoracic Rotation; 5 reps/side
2. Seated Shoulder Extension Stretch; 30 sec
3. Passive Hang; 30 sec

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist PUMP COND 5x

A) Daily Focus Notes:
Functional Ab + Leg Pump
This section pairs descending rep schemes for the core and legs with a cardio machine between sets. Descending reps mean the sets get shorter as you go, which makes the later sets feel more achievable even as fatigue builds. The cardio machine between sets is not recovery. It keeps the heart rate up and adds a cardiovascular demand on top of the muscular endurance work. Select a pace on the machine that gives you just enough time to reset before the next set of abs or legs. Short on time? Remove Strength Balance or Functional Ab + Leg Pump based on your goals.

A) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

B) Strength Intensity (15 min):
Cyclist Back Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy

Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

C) Strength Balance (10 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
rest 60 sec
2. Barbell Hip Thrust; 10-12 reps @21X1 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

D) Functional Ab + Leg Pump (12-15 min):
For Time:
24-20-16-12-8
Russian Twist (R+L = 1)
*5/4 cal Row between each set (Male/Female)
rest 2mins
24-20-16-12-8
Dumbbell Suitcase Walking Lunge (R+L=2) 50/35\#
*5/4 cal Row between each set
Effort Note:
This workout contains a descending rep scheme for abs and legs broken up with a cardio machine. Select a pace for the row that matches the rest you need before starting your next set of abs or legs.

E) Cooldown (5 min):
1-2 sets
1. Slantboard Jefferson Pulse; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side
3. Shinbox Heel Touch; 5 reps/side

Thursday, July 30th, 2026

Week 3 Day 4 - Persist PUMP COND 5x

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right
- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat
then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Thoracic Mobility
Segmented Cat Cow x 5 reps
Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Friday, July 31st, 2026

Week 3 Day 5 - Persist PUMP COND 5x

A) Daily Focus Notes:
Fatigued Shoulders
This section is built around the principle of working the shoulders through repeated bouts of pressing and carrying, with a cardio machine used as active recovery between rounds. The reps decrease each round, so the sets get shorter as fatigue builds. The cardio gives the shoulders a

partial break while keeping the heart rate elevated. Use that time to breathe and reset before the next set of shoulder work. If you are between weights, go lighter. The format will expose any weight that is too heavy early.
Short on time? Remove Strength Balance or Fatigued Shoulders based on your goals.

A) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Push Up With Shoulder Tap; 4-5 reps/side
3. Supinated Pull Up Isometric; 10 sec

B) Strength Intensity (15 min):
Seated Filly Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

C) Strength Balance (10 min):
3 sets
1. RNT Single Arm Dumbbell Row; 10 reps/side @21X1 Tempo
rest 30 sec
2. Poliquin Lateral Raise; 10-15 reps @30X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to failure.

D) Fatigued Shoulders (15 min):
For Quality
1k/800m Bike (Male/Female)
12/side Half Kneeling Landmine Press @30X0 Tempo
12 Bar Facing Burpees
1k/800m Bike
12/side Half Kneeling Landmine Press @30X0 Tempo
8 Bar Facing Burpees

1k/800m Bike
15/side Half Kneeling Landmine Press @30X0 Tempo
4 Bar Facing Burpees
*Barbell Weight Suggestion 65/45\#
Effort Note:
This conditioning piece is highly fatiguing for the shoulders. If you are between weights, opt for a lighter weight. You can break up the reps as needed, but try to keep rest to a minimum during the shoulder exercises. Use the bike to catch your breath and allow your shoulders to recover.

E) Cooldown (5 min):
1-2 sets
1. Forward Shoulder Wall Circles; 10 reps/side
2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Saturday, August 1st, 2026

Week 3 Day 5 - Persist PUMP COND 5x

A) Daily Focus Notes:
Carry Conditioning
This section pairs a high effort cardio burst with a ballistic lower body movement and a loaded carry. Each element taxes a different system. The cardio spikes the heart rate. The ballistic movement keeps the legs and posterior chain working under an elevated heart rate. The carry that follows demands full body tension and grip while everything else is still working. That sequencing builds the kind of work capacity that transfers directly to sport and everyday movement. Start at a pace you can sustain and build across sets.
Short on time? Remove Strength Balance or Carry Conditioning based on your goals.

A) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Forward Lunge; 6/side
3. Goblet Good Morning; 10 reps

B) Strength Intensity (15 min):
Zercher Split Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps/side @20X0 Tempo - Easy
Working Set 1 - 10 reps/side @20X0 Tempo - RPE 7

Working Set 2 - 8 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 6 reps/side @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

C) Strength Balance (10 min):
3 sets
1. Assisted Nordic Hamstring Curl or BC Gliding Hamstring Curl; 8-10 reps @30X0 Tempo
rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo
rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

D) Carry Conditioning (12-15 min):
2-3 Sets For Quality
60sec Run @ High Effort
24 Dumbbell Box Step Up
60sec Cross Body Carry 70/53\#
rest 60-90sec between sets
Effort Note:
Select a weight that is challenging, but you are able to complete it unbroken for at least the first set. Start this workout at a sustainable pace. Increase the pace each round if you are feeling good.

E) Cooldown (5 min):
1-2 sets
1. Half Split Hip Hinge; 6-8 reps/side
2. Weighted Ankle Stretch; 30 sec/side
3. Bottom of Squat Hold; 30 sec

Sunday, August 2nd, 2026

Week 3 Day 6 - Persist PUMP COND 5x

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Warmly,

Marcus

Pump Condition 4x

Monday, July 27th, 2026

Week 3 Day 1 - Persist PUMP COND 4x

A) Daily Focus Notes:
High Turnover Push
This section alternates between a cardio machine and pushing movements. The format is designed to keep the heart rate elevated while the pushing muscles accumulate volume under fatigue. The row offers a partial break for the pressing muscles. Use it to control your breathing and reset before the next set of push work, but do not expect a full shoulder recovery between movements. The goal is smooth transitions and consistent effort across every set.
Short on time? Remove Strength Balance or High Turnover Push based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

C) Strength Intensity (15 min):
Incline Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.

RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Balance (10 min):
Every 75 sec x 6 rounds (3 sets each)
1. Pendlay Row; 6 reps @30X0 Tempo
2. Supinated Strict Pull Up; 4 reps @21X1 Tempo

Loading Note:
Pull Up and Pendlay Row reps are heavy this week with the goal of pushing the intensity on both movements. Aim for the first set of each to be about RPE 7-8. Then you can increase or keep the weight the same for the remainder of the sets based on how much intensity you are wanting to push today. The Pendlay Row has increased in reps from Week 1, aim to match the same weight. The Pull Up has decreased in reps from Week 1, aim to increase weight or decrease assistance. This format is 3 sets of each movement.

E) High Turnover Push (12 min):
5 min As Many Reps As Possible (AMRAP)
10/8 Row Calories (Male/Female) @ high effort
8-10 Ring Push Ups
rest 2 minutes between AMRAP
5 min AMRAP
10/8 Row Calories (Male/Female) @ high effort
6-8 Inchworm Push Up
Effort Note:
Prioritize smooth transitions during this conditioning piece. The workouts will be switching frequently between the movements. The movements within each AMRAP are complimentary to each other. This will allow you to push the intensity while resting the body region that was just working.

F) Cooldown (5 min):
1-2 sets
1. Sidelying 90/90 Thoracic Rotation; 5 reps/side
2. Seated Shoulder Extension Stretch; 30 sec
3. Passive Hang; 30 sec

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist PUMP COND 4x

A) Daily Focus Notes:
Functional Ab + Leg Pump

This section pairs descending rep schemes for the core and the legs with a cardio machine between each set. The descending reps mean the sets get shorter as you go, which makes the later sets feel more achievable even as the fatigue builds. The cardio machine between sets is not recovery. It keeps the heart rate up and adds a cardiovascular demand on top of the muscular endurance work. Select a pace on the machine that gives you just enough time to reset before the next set of abs or legs.
Short on time? Remove Strength Balance or Functional Ab + Leg Pump based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

C) Strength Intensity (15 min):
Cyclist Back Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

D) Strength Balance (10 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
rest 60 sec
2. Barbell Hip Thrust; 10-12 reps @21X1 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

E) Functional Ab + Leg Pump (12-15 min):
For Time:
24-20-16-12-8
Russian Twist (R+L = 1)

*5/4 cal Row between each set (Male/Female)
rest 2mins
24-20-16-12-8
Dumbbell Suitcase Walking Lunge (R+L=2) 50/35\# (Male/Female)
*5/4 cal Row between each set (Male/Female)
Effort Note:
This workout contains a descending rep scheme for abs and legs broken up with a cardio machine. Select a pace for the row that matches the rest you need before starting your next set of abs or legs.

F) Cooldown (5 min):
1-2 sets
1. Slantboard Jefferson Pulse; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side
3. Shinbox Heel Touch; 5 reps/side

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist PUMP COND 4x
Week 3 Day 3 - Persist PUMP COND 4x

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Thoracic Mobility
Segmented Cat Cow x 5 reps
Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Thursday, July 30th, 2026

Week 3 Day 4 - Persist PUMP COND 4x

A) Daily Focus Notes:
Fatigued Shoulders
This section is built around the principle of working the shoulders through repeated bouts of pressing and carrying with a cardio machine used as active recovery between rounds. The reps decrease each round, which means the sets get shorter as the fatigue builds. The cardio gives the shoulders a partial break while keeping the heart rate elevated. Use that time to breathe and reset before the next set of shoulder work. If you are between weights, go lighter. The format will expose any weight that is too heavy early.
Short on time? Remove Strength Balance or Fatigued Shoulders based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Push Up With Shoulder Tap; 4-5 reps/side
3. Supinated Pull Up Isometric; 10 sec

C) Strength Intensity (15 min):
Seated Filly Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Balance (10 min):
3 sets
1. Barbell Skullcrusher; 8 reps @21X1 Tempo
rest 30 sec
2. Narrow Grip DB Bench Press; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure.

E) Fatigued Shoulders (15 min):
For Quality

1k/800m Bike (Male/Female)
12/side Half Kneeling Landmine Press @30X0 Tempo
12 Bar Facing Burpees
1k/800m Bike (Male/Female)
12/side Half Kneeling Landmine Press @30X0 Tempo
8 Bar Facing Burpees
1k/800m Bike (Male/Female)
15/side Half Kneeling Landmine Press @30X0 Tempo
4 Bar Facing Burpees
*Barbell Weight Suggestion 65/45\#
Effort Note:
This conditioning piece is highly fatiguing for the shoulders. If you are between weights, opt for a lighter weight. You break up the reps however needed, but try to keep rest minimal during the shoulder exercises. Use the bike to catch your breath and allow your shoulders to recover.

F) Cooldown (5 min):
1-2 sets
1. Forward Shoulder Wall Circles; 10 reps/side
2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Friday, July 31st, 2026

Week 3 Day 5 - Persist PUMP COND 4x

A) Daily Focus Notes:
Carry Conditioning
This section pairs a high effort cardio burst with a ballistic lower body movement and a loaded carry. Each element taxes a different system. The cardio spikes the heart rate. The ballistic movement keeps the legs and posterior chain working under elevated heart rate. The carry that follows demands full body tension and grip while everything else is still working. That sequencing builds the kind of work capacity that transfers directly to sport and everyday movement. Start at a pace you can sustain and build across sets.
Short on time? Remove Strength Balance or Carry Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Forward Lunge; 6/side
3. Goblet Good Morning; 10 reps

C) Strength Intensity (15 min):
Conventional Deadlift
3 Working Sets; rest 2-3 min
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 4 reps @20X0 Tempo - Easy
Working Set 1 - 4 reps @20X0 Tempo - RPE 7
Working Set 2 - 4 reps @20X0 Tempo - RPE 8
Working Set 3 - 4 reps @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Balance (10 min):
3 sets
1. Assisted Nordic Hamstring Curl or BC Gliding Hamstring Curl; 8-10 reps @30X0 Tempo
rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo
rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

E) Carry Conditioning (12-15 min):
2-3 Sets For Quality
60sec Run @ High Effort
24 Dumbbell Box Step Up
60sec Cross Body Carry 70/53\#
rest 60-90sec between sets
Effort Note:
Select a weight that is challenging, but you are able to complete unbroken for at least the first set. Start this workout at a sustainable pace. Increase pace each round if you are feeling good.

F) Cooldown (5 min):
1-2 sets
1. Half Split Hip Hinge; 6-8 reps/side
2. Weighted Ankle Stretch; 30 sec/side
3. Bottom of Squat Hold; 30 sec

Saturday, August 1st, 2026

Week 3 Day 6 - Persist PUMP COND 4x

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right
- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat
then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Hip Internal Rotation
1. Hip Sleeper Stretch x 1-2 min/side
2. Shinbox Hip IR Stretch x 1-2 min/side
3. Shinbox Active Hip IR Liftoff x 10 reps/side
4. Half Kneeling Weight Shift x 10 reps/side
5. Squat Hip Rotations x 10 reps
6. Supine Active Hip Internal Rotation x 5-10 reps/side

Sunday, August 2nd, 2026

40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right
- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat

then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Squat Mobility
1. Shinbox Switch x 10 reps/side
2. Shinbox Thoracic Rotation x 5 reps/side
3. Shinbox Rear Leg ER + Shinbox Heel Touch x 5 reps/side
4. Downdog Calf Stretch x 10 reps/side
5. Weighted Ankle Stretch x 1-2 min/side
6. Frog Stretch x 1-2 min
7. Active Hip Flexion x 5 reps/side with 5 sec hold
8. Russian Babymaker x 10 reps
9. Squat Thoracic Rotations x 5 reps/side
10. Squat Hip Rotations x 10 reps/side

Sunday, August 2nd, 2026

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Warmly,

Marcus

Perform

Monday, July 27th, 2026

Week 3 Day 1 - Persist PERFORM

A) Daily Focus Notes:
Run, Hinge, Core
This section links running with kettlebell hinging and core work in a continuous format. The run keeps the heart rate elevated between the skill-based movements. The KB movements demand power from the hips and posterior chain while the core work adds rotational and anti-rotation demand on top of that. Aim for a consistent and sustainable pace across both AMRAP sets. Both rounds should look similar in total reps.
Short on time? Remove Strength Balance or Run, Hinge, Core based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Single Leg Hand Support DB RDL; 6-8 reps/side
3. Body Row; 12-15 reps

C) Speed Strength - Snatch (15-18 min):
Barbell Warm-up:
1-2 Sets (with Empty Barbell)
10 Snatch Grip Romanian Deadlift
10 BTN Snatch Press or BTN Snatch Push Press
10 Overhead Squat
10 sec Squatting Quad Snatch Grip Hold
10 sec Snatch Grip Overhead Hold
10 sec Overhead Squat Hold
Every 2:00 x 5 sets
1 Hang Power Snatch + 1 Low Hang Power Snatch + 1 Power Snatch
rest until the next 2:00
Sets 1-2: Easy
Set 3-4: Moderate
Set 5: Challenging

D) Strength Intensity (15 min):

Conventional Deadlift
3 Working Sets; rest 2-3 min
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Warm-Up Set - 4 reps @20X0 Tempo - Easy
Working Set 1 - 4 reps @20X0 Tempo - RPE 7
Working Set 2 - 4 reps @20X0 Tempo - RPE 8
Working Set 3 - 4 reps @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

E) Strength Balance (10 min):
Every 75 sec x 6 rounds (3 sets each)
1. Pendlay Row; 6 reps @30X0 Tempo
2. Supinated Strict Pull Up; 4 reps @21X1 Tempo

Loading Note:
Pull Up and Pendlay Row reps are heavy this week with the goal of pushing the intensity on both movements. Aim for the first set of each to be about RPE 7-8. Then you can increase or keep the weight the same for the remainder of the sets based on how much intensity you are wanting to push today. The Pendlay Row has increased in reps from Week 1, aim to match the same weight. The Pull Up has decreased in reps from Week 1, aim to increase weight or decrease assistance. This format is 3 sets of each movement.

F) Run, Hinge, Core (12 min):
Every 60 sec x 12 sets
1. 40 sec Shuttle Run
2. 30-40 sec KB Switch Snatch (44/26\#) (Male/Female)
3. 40 sec KB Single Arm Turkish Sit Up (switch half way)

Effort Note:
The short rests built into each minute will allow for a bit higher intensity on the working portion.
*Shuttle Run: Mark two points 10m apart. 1 rep = there and back.

G) Cooldown (5 min):
1-2 sets
1. Lumbar Roll to Pancake Stretch; 5 reps with 5 sec stretch
2. Single Arm Wall Prayer Stretch x 30 sec/side
3. Pigeon Stretch; 30-60 sec/side

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist PERFORM

A) Daily Focus Notes:
Chest + Core Conditioning
This section pairs rowing with pressing and core work in a descending and ascending rep scheme. The row keeps the heart rate elevated and gives the pressing muscles a partial break between sets. The pressing and core movements alternate in a way that lets you push the intensity without full upper body failure. Rest 30 seconds between rounds and use it to reset before the next set.
Short on time? Remove Strength Balance or Chest + Core Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

C) Cyclical Hot Start (10 min):
Bike
2 sets
15 sec hard; 45 sec easy
30 sec hard; 30 sec easy
45 sec hard; 15 sec easy
60 sec hard; 60 sec easy
Effort Note:
Do not worry about pacing from set 1 to set 2. Push the pace and recover with the easy pace.

D) Strength Intensity (15 min):
Incline Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

E) Strength Balance (10 min):
3 sets
1. Barbell Skullcrusher; 8 reps @21X1 Tempo
rest 30 sec

2. Narrow Grip DB Bench Press; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure.

F) Chest + Core Conditioning (12-15 min):
For Time
20-15-10-15-20
Calorie Row (Female Rx Cals - 16-12-8-12-16)
Strict Bar Dip
Toes to Bar or Hanging Knee Tucks
rest 30 seconds after each round
Effort Note:
Same pyramid structure as Week 1. Descending to the middle, then climbing back up. The strict bar dip is the most demanding movement here, so break sets early rather than grinding to failure. The row gives the pressing muscles a partial break between rounds. The toes to bar will feel harder as the dips accumulate fatigue through the cycle. Use the 30 second rest to shake out the arms and reset the grip before the next round.

G) Cooldown (5 min):
1-2 sets
1. Sidelying 90/90 Thoracic Rotation; 5 reps/side
2. Seated Shoulder Extension Stretch; 30 sec
3. Passive Hang; 30 sec
Week 3 Day 3 - Persist PERFORM

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist PERFORM

A) Daily Focus Notes:
Power Endurance
This section combines barbell cycling with explosive jumping and core or posterior chain work. The format demands both strength and the ability to sustain output across repeated high-intensity sets. The barbell movements require technical precision under fatigue, so manage your pace early. If the barbell starts to break down, the rest of the piece will suffer. Start within yourself and build across the sets.
Short on time? Remove Strength Balance or Power Endurance based on your goals.

B) Warmup (8 min):

2 min Cardio of Choice
3 Sets
1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

C) Speed Strength - Clean (15-18 min):
1-2 Sets (with Empty Barbell)
10 Romanian Deadlift
10 Strict Press
10 Front Squat
10 sec Squatting Quad Clean Grip Hold
10 sec Front Rack Hold
10 sec Front Squat Hold
Every 2:00 x 5 sets
1 Pause at Knee Clean
Sets 1-2: Easy
Set 3-4: Moderate
Set 5: Challenging

D) Strength Intensity (15 min):
Cyclist Back Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

E) Strength Balance (10 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
rest 60 sec
2. Barbell Hip Thrust; 10-12 reps @21X1 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

F) Power Endurance (12-15 min):
15-12-9-6
Power Snatch 95/65\# (Male/Female)
Burpee Step Up 24/20" (Male/Female)
- no rest directly into -
18-15-12-9-6
KB Swing High Pull (70/53\#) (Male/Female)
KB Tall Plank Knees to Elbow (R + L = 1)
Effort Note:
Push the pace on each couplet. The rest between will not feel like a lot, but it will be enough to keep output high on both pieces.

G) Cooldown (5 min):
1-2 sets
1. Slantboard Jefferson Pulse; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side
3. Shinbox Heel Touch; 5 reps/side

Thursday, July 30th, 2026

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 20 sec Side Plank Right
- 20 sec Side Plank Left
- 4 Standing KB or Bodyweight Windmill Right
- 4 Standing KB or Bodyweight Windmill Left
*return to Row or Jog and repeat
then
Part 2: 20 min timer (continuous movement):
200m Row or Jog
then stop and do the following:
- 10 Underswitch to Crab Reach
- 15m Quadruped Crawl
- 20sec Bent Hollow Hold
*return to Row or Jog and repeat

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Thoracic Mobility
Segmented Cat Cow x 5 reps
Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Friday, July 31st, 2026

Week 3 Day 5 - Persist PERFORM

A) Daily Focus Notes:
Push Pull Conditioning
This 15-minute AMRAP alternates between pulling, pressing, and cardio in a format that keeps the upper body working almost continuously. The gymnastics movements come first when you are freshest. The KB push press and row follow while the upper body is already accumulating fatigue. The goal is quality reps and consistent output across the full 15 minutes, not failure early.
Short on time? Remove Strength Balance or Push Pull Conditioning based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets
1. 15 sec Cardio Sprint
2. Push Up With Shoulder Tap; 4-5 reps/side
3. Supinated Pull Up Isometric; 10 sec

C) Jerk Progression (12 min):
5 working sets; rest 90 sec between sets
3 Pause Split Jerk
Set 1-2: Easy
Set 3-4: Moderate
Set 5: Challenging

D) Strength Intensity (15 min):
Seated Filly Press
4 Working Sets; rest 2-3 min

Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

E) Strength Balance (10 min):
3 sets
1. RNT Single Arm Dumbbell Row; 10 reps/side @21X1 Tempo
rest 30 sec
2. Poliquin Lateral Raise; 10-15 reps @30X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to failure.

F) Push Pull Conditioning (15 min):
15min AMRAP @ 85% Effort
8 Kipping Pull Ups
10 Barbell Push Press (95/65\#) (Male/Female)
12 Push Ups
20/16 Calorie Row
Effort Note:
Aim to accumulate a lot of quality reps by not hitting failure too soon into the AMRAP. Allow your upper body fatigue to dictate how you are breaking up sets. Push the pace on the row as your breathing will likely be less of a problem than your upper body fatigue.

G) Cooldown (5 min):
1-2 sets
1. Forward Shoulder Wall Circles; 10 reps/side
2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Saturday, August 1st, 2026

Week 3 Day 6 - Persist PERFORM

A) Daily Focus Notes:
Couple of Couplets

Two couplets back to back. Each pairing a cardio machine with a lower body loaded movement. The first couplet works through the same reps for five rounds before moving directly into the second. The format rewards pacing. Going out too hard on the first couplet will cost you on the second. Find a rhythm early and hold it across all ten rounds.
Short on time? Remove Strength Balance or Couple of Couplets based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Forward Lunge; 6/side
3. Goblet Good Morning; 10 reps

C) Aerobic KB Skills (9-12 min):
9-12mins Continuous Effort
Row 30sec Easy
Row 30sec Hard
3 Right Arm KB High + 3 Right Arm KB Snatch
3 Left Arm KB High + 3 Left Arm KB Snatch
Effort Note:
Select a weight and pace that allows you to practice pacing and KB skill without overly fatiguing yourself for the sections of training to come.

D) Strength Intensity (15 min):
Zercher Split Squat
3 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps/side @20X0 Tempo - Easy
Working Set 1 - 10 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 8 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 6 reps/side @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

E) Strength Balance (10 min):
3 sets
1. Assisted Nordic Hamstring Curl or BC Gliding Hamstring Curl; 8-10 reps @30X0 Tempo
rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo
rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

F) Couple of Couplets (12-15 min):
5 Rounds
10/8 Cal Bike
10 Goblet Cyclist Squat (70/53\#) (Male/Female)
into
5 Rounds
10/8 Cal Bike
10 Jump Lunge (5/side)
Effort Note:
Try to find a pace that is challenging but sustainable. This format allows for you to find a great rhythm.

G) Cooldown (5 min):
1-2 sets
1. Half Split Hip Hinge; 6-8 reps/side
2. Weighted Ankle Stretch; 30 sec/side
3. Bottom of Squat Hold; 30 sec

Sunday, August 2nd, 2026

Week 3 Day 7 - Persist PERFORM

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Warmly,

Marcus

Minimalist

Monday, July 27th, 2026

Week 3 Day 1 - Persist MINIMALIST

A) Daily Focus Notes:
High Turnover Push
This section alternates between a cardio machine and pushing movements. The format keeps the heart rate elevated while the pushing muscles accumulate volume under fatigue. The run offers a partial break for the pressing muscles. Use it to control your breathing and reset before the next set of push work, but do not expect a full shoulder recovery between movements. The goal is smooth transitions and consistent effort across every set.
Short on time? Remove Strength Balance or High Turnover Push based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Half Kneeling Dumbbell Windmill; 5 reps/side
3. Banded Face Pull; 15-20 reps

C) Strength Intensity (15 min):
Incline DB Bench Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X1 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Balance (10 min):
Every 75 sec x 6 (3 sets each)
1. DB Pendlay Row; 6 reps @30X0 Tempo
2. Supinated Strict Pull Up; 4 reps @21X1 Tempo

Loading Note:
Pull Up and Pendlay Row reps are heavy this week with the goal of pushing the intensity on both movements. Aim for the first set of each to be about RPE 7-8. Then you can increase or keep the weight the same for the remainder of the sets based on how much intensity you are wanting to

push today. The Pendlay Row has increased in reps from Week 1, aim to match the same weight. The Pull Up has decreased in reps from Week 1, aim to increase weight or decrease assistance. This format is 3 sets of each movement. Perform only one exercise every 75 seconds.

E) High Turnover Push (12 min):
5 min As Many Reps As Possible (AMRAP)
100/80m Run
8-10 Ring Push Ups
rest 2 minutes between AMRAP
5 min AMRAP
100/80m Run
6-8 Inchworm Push Up
Effort Note:
Prioritize smooth transitions during this conditioning piece. The workouts will be switching frequently between the movements. The movements within each AMRAP are complimentary to each other. This will allow you to push the intensity while resting the body region that was just working.

F) Cooldown (5 min):
1-2 sets
1. Sidelying 90/90 Thoracic Rotation; 5 reps/side
2. Seated Shoulder Extension Stretch; 30 sec
3. Passive Hang; 30 sec

Tuesday, July 28th, 2026

Week 3 Day 2 - Persist MINIMALIST

A) Daily Focus Notes:
Functional Ab + Leg Pump
This section pairs descending rep schemes for the core and legs with shuttle runs between sets. Descending reps mean the sets get shorter as you go, which makes the later sets feel more achievable even as fatigue builds. The shuttle runs between sets are not recovery. They keep the heart rate up and add a cardiovascular demand on top of the muscular endurance work. Select a pace on the shuttles that gives you just enough time to reset before the next set of abs or legs. Short on time? Remove Strength Balance or Functional Ab + Leg Pump based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets

1. Curtsy Step Down; 6 reps/side
2. Single Leg Hip Thrust; 10 reps/side

C) Strength Intensity (15 min):
Cyclist Goblet Squat
4 Working Sets; rest 2 min
Warm-Up Set - 10 reps @20X1 Tempo - Easy
Working Set 1 - 10 reps @20X1 Tempo - RPE 7
Working Set 2 - 8 reps @20X1 Tempo - RPE 8
Working Set 3 - 6 reps @20X1 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion, scale of 10 where 10 is form failure

D) Strength Balance (10 min):
3 sets
1. Goblet Cossack Squat; 6-8 reps/side @21X1 Tempo
rest 60 sec
2. DB Hip Thrust; 15 reps @21X1 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 7-8 on the first working set, then keep the weight the same for the remainder of the sets, or increase the weight each set if looking to increase intensity.

E) Functional Ab + Leg Pump (12-15 min):
For Time:
24-20-16-12-8
Russian Twist (R+L = 1)
*2 Shuttle Run between each set
rest 2mins
24-20-16-12-8
Dumbbell Suitcase Walking Lunge (R+L=2) 50/35\# (Male/Female)
*2 Shuttle Run between each set
Effort Note:
This workout contains a descending rep scheme for abs and legs broken up with shuttle runs. Select a pace for the shuttle runs that matches the rest you need before starting your next set of abs or legs.
*Shuttle Run: Mark two points 10m apart. 1 rep = there and back.

F) Cooldown (5 min):
1-2 sets
1. Slantboard Jefferson Pulse; 30 sec
2. Half Kneeling Hip Flexor Stretch; 30 sec/side
3. Shinbox Heel Touch; 5 reps/side

Wednesday, July 29th, 2026

Week 3 Day 3 - Persist MINIMALIST

A) Active Recovery Work (30 min):
Goal: Complete 30 minutes of low-intensity steady-state movement today. You can get out for a 30-minute walk, hike on some moderate terrain, or if you like to bike or swim, have at it.

B) PERSIST RECOVERY MOBILITY SESSION (10 min):
Thoracic Mobility
Segmented Cat Cow x 5 reps
Childs Pose Lat Stretch x 30 sec/side
Sidelying Thoracic Rotation x 5 reps/side with 5 sec hold
T Spine Can Opener x 1-2 min
Banded Shoulder Extension x 1 min
Active Banded Shoulder Extension x 5 reps
Yoga Push Up x 5 reps

Thursday, July 30th, 2026

Week 3 Day 4 - Persist MINIMALIST

A) Daily Focus Notes:
Fatigued Shoulders
This section is built around the principle of working the shoulders through repeated bouts of pressing with active recovery between rounds. The reps decrease each round so the sets get shorter as fatigue builds. The run between rounds gives the shoulders a partial break while keeping the heart rate elevated. Use that time to breathe and reset before the next set of shoulder work. If you are between weights, go lighter. The format will expose any weight that is too heavy early.
Short on time? Remove Strength Balance or Fatigued Shoulders based on your goals.

B) Warmup (8 min):
2 min Cardio of Choice
3 Sets

1. 15 sec Cardio Sprint
2. Push Up With Shoulder Tap; 4-5 reps/side
3. Supinated Pull Up Isometric; 10 sec

C) Strength Intensity (15 min):
Seated DB Filly Press
4 Working Sets; rest 2-3 min
Warm-Up Set - 7 reps/side @20X0 Tempo - Easy
Working Set 1 - 7 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 7 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 7 reps/side @20X0 Tempo - RPE 9
Working Set 4 - Max Unbroken reps @20X0 Tempo - RPE 10 - Set 1 weight.
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Balance (10 min):
3 sets
1. DB Skullcrusher; 8 reps @21X1 Tempo
rest 30 sec
2. Narrow Grip DB Bench Press; 10-12 reps @20X0 Tempo
rest 90 sec and back to 1.
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for each set to be close to form failure.

E) Fatigued Shoulders (15 min):
For Quality
400m Run
10/side Half Kneeling Alternating DB Press @20X0 Tempo
12 Dumbbell Facing Burpees
400m Run
12/side Half Kneeling Alternating DB Press @20X0 Tempo
8 Dumbbell Facing Burpees
400m Run
15/side Half Kneeling Alternating DB Press @20X0 Tempo
4 Dumbbell Facing Burpees
*DB Weight Suggestion 50/35\# (Male/Female)
Effort Note:
This conditioning piece is highly fatiguing for the shoulders. If you are between weights, opt for a lighter weight. You break up the reps however needed, but try to keep rest minimal during the shoulder exercises. Use the bike to catch your breath and allow your shoulders to recover.

F) Cooldown (5 min):
1-2 sets
1. Forward Shoulder Wall Circles; 10 reps/side
2. Banded Shoulder Flexion Stretch; 30 sec
3. Banded Shoulder Extension Stretch; 30 sec

Friday, July 31st, 2026

Week 3 Day 5 - Persist MINIMALIST

A) Daily Focus Notes:
Carry Conditioning
This section pairs a high effort burst with a loaded movement and a carry. Each element taxes a different system. The explosive work spikes the heart rate and keeps the legs and posterior chain working under fatigue. The carry that follows demands full body tension and grip while everything else is still working. That sequencing builds the kind of work capacity that transfers directly to sport and everyday movement. Start at a pace you can sustain and build across sets.
Short on time? Remove Strength Balance or Carry Conditioning based on your goals.

B) Warmup (8 min):
3 Rounds
1. 90 sec Cardio of Choice
2. Forward Lunge; 6/side
3. Goblet Good Morning; 10 reps

C) Strength Intensity (15 min):
Split Stance DB RDL
3 Working Sets; rest 2-3 min
Warm-Up Set - 5 reps @20X0 Tempo - Easy
Working Set 1 - 5 reps/side @20X0 Tempo - RPE 7
Working Set 2 - 5 reps/side @20X0 Tempo - RPE 8
Working Set 3 - 5 reps/side @20X0 Tempo - RPE 9
RPE = Rate of Perceived Exertion - scale of 10, where 10 is form failure.

D) Strength Balance (10 min):
3 sets
1. Hamstring Walk Out; 30-45 sec
rest 60 sec
2. Heel Elevated Pistol Negative; 6-8 reps/side @30A0 Tempo

rest 90 sec
Loading Note:
Perform 1-2 warmup sets to determine starting weight. Aim for RPE 8-9 on all sets.

E) Carry Conditioning (12-15 min):
2-3 Sets For Quality
20/side Mountain Climbers
10 Burpee
24 Dumbbell Box Step Up
60sec Cross Body Carry 70/50\# (Male/Female)
rest 60-90sec between sets
Effort Note:
Select a weight that is challenging, but you are able to complete unbroken for at least the first set. Start this workout at a sustainable pace. Increase pace each round if you are feeling good.

F) Cooldown (5 min):
1-2 sets
1. Half Split Hip Hinge; 6-8 reps/side
2. Weighted Ankle Stretch; 30 sec/side
3. Bottom of Squat Hold; 30 sec

Saturday, August 1st, 2026

Week 3 Day 6 - Persist MINIMALIST

A) Active Recovery Work (40 min):
40 min total work
Part 1: 20 min timer (continuous movement):
200m Row or Jog

Week 3 Day 7 - Persist MINIMALIST

There's a version of progress that looks dramatic. Extreme programs, major overhauls, all-or-nothing efforts. And then there's the version that actually works.

The people who get the best results over time aren't the ones who go the hardest. They're the ones who show up the most. A solid workout four days a week for a year will outperform a brutal two-week program every single time. The math just works out that way.

I'd rather have you leave the gym feeling like you could have done a little more than have you grinding yourself into the ground and needing a week to recover. Sustainable effort compounds. Heroic effort usually just leads to a break. Stop asking how hard you can push and start asking how long you can keep going. That shift in thinking changes everything.

Warmly,

Marcus
